

**Questions Submitted by Trustee Connie Prado**  
**October 11, 2017**  
**Special Called Board Meeting**

**Consent: Item #2**

1. Question: *Is the administration recommending all three firms as the agenda item caption would seem to indicate? If not, which firm is being recommended?*

**Answer: The administration is recommending all 3 firms.**

2. Question: *What will be the cost for these services during this first year?*

**Answer: Costs will be determined upon the district's request for proposals as projects are determined throughout the year.**

3. Question: *What is the specific scope of architectural services which the school district is seeking?*

**Answer: The softball field batting cage will be the first project requiring the services of an architect.**

4. Question: *How will these new architectural services differ from the Facilities Needs Assessment conducted by the Garza/Bomberger firm in May 2015?*

**Answer: The RFQ was issued to ensure that we had a documented process for the selection of architects for future projects.**

5. Question: *Did Garza/Bomberger prepare any facilities data on proposed Bond Projects-Costs-Graphics in the last two years (approximately)?*

**Answer: The district administration has not requested this type of facilities data within the past two years. While Ms. Prado served as Board president, she received a phased in replacement plan for 8 of our elementary schools that I am assuming she requested. Garza/Bomberger provided a copy of those schematic plans to the administration within the last year.**
