

Consider approval to purchase the Frontline Education school administration program subscription

1. Background:

Southwest ISD currently uses the Frontline Education school administration program from Frontline Technologies Group for student management, business operations, and human capital processes. The District has purchased a yearly subscription since the system was implemented in September 2019.

2. Process:

The renewal subscription is procured through Buyboard contract 661-22 for Technology Equipment, Products, Services, and Software. Additional quotes were not solicited since Frontline Education already provides Southwest ISD with industry-leading solutions and technology, continuity and substantial costs would be incurred transitioning to a new school administration program.

3. Fiscal Impact:

The cost is \$294,428.68 for a renewal 12-month subscription. Locally budgeted funds will be utilized to purchase the subscription.

4. Recommendation:

That the Board approves the purchase of the 12-month renewal subscription for the Frontline Education school administration program.

5. Required:

Board action.
