Introduction

It is the belief of the Professional Growth Committee that, with effective implementation, this Professional Growth Plan will lead to increased self-reflection by licensed staff, greater job satisfaction, higher quality of instruction and ultimately increased student learning. The Professional Growth Committee read the Charlotte Danielson book; “Teacher Evaluation, to Enhance Professional Practice” and the revised Oregon Department of Education Framework June 28-29 2012. The goal of the committee was to develop an evaluation system unique to Sheridan that reflects “effective instruction” and pilot the plan during the 2013-2014 school year with full implementation by July 1, 2014.

Professional Growth Committee Members:

Maureen Walter, SPED Teacher, Titan Academy
Robin VanBuren, Sixth Grade Teacher, Faulconer Chapman School
Darci Holland, SPED Teacher, Sheridan High School
Julia Evans, Kindergarten Teacher, Faulconer Chapman School
Marci Hendrix, Fourth Grade Teacher, Faulconer Chapman School

DRAFT

Overview of the Process

The Oregon Framework for Teacher’s identifies ten standards organized into four domains. The committee members created a working rubric for each standard to provide a description of what each standard looks like at the does not meet standard, developing proficiency toward standard, proficient relative to standard, and exceeds standard levels. A first year teacher is expected to achieve a minimum of the developing proficiency toward standard level, with movement toward proficient relative to standard level by the end of the year. The second year a teacher is expected to achieve a minimum of five or more standards in the proficient relative to standard level; these standards are to be selected collaboratively with their building administrator. The five remaining standards are to be raised to a minimum of a proficient relative to standard level in the third year. By the time a teacher moves to contracted status, he or she should be proficient relative to standard and making improvement toward exceeds standard in one or more areas.

Emphasis of the evaluation system should be professional growth where employees are empowered to be self-directed. Support and assistance are provided for individual teachers needing the opportunity to remedy specific weaknesses. The utilization of direct classroom observations, an evaluator may use a variety of student performance data, collaborative assignments, non-instructional duties, curricular responsibilities, and student input when formulating a final evaluation. Student performance data and/or student feedback will not be used independently to formulate teacher evaluation.

Performance Levels

The Framework for Teaching includes four levels of performance: Does Not Meet Standard, Developing Proficiency Toward Standard, Proficient Relative to Standard, and Exceeds Standard. It is important to recognize that the levels are levels of performance of *teaching*, not of *teachers*.

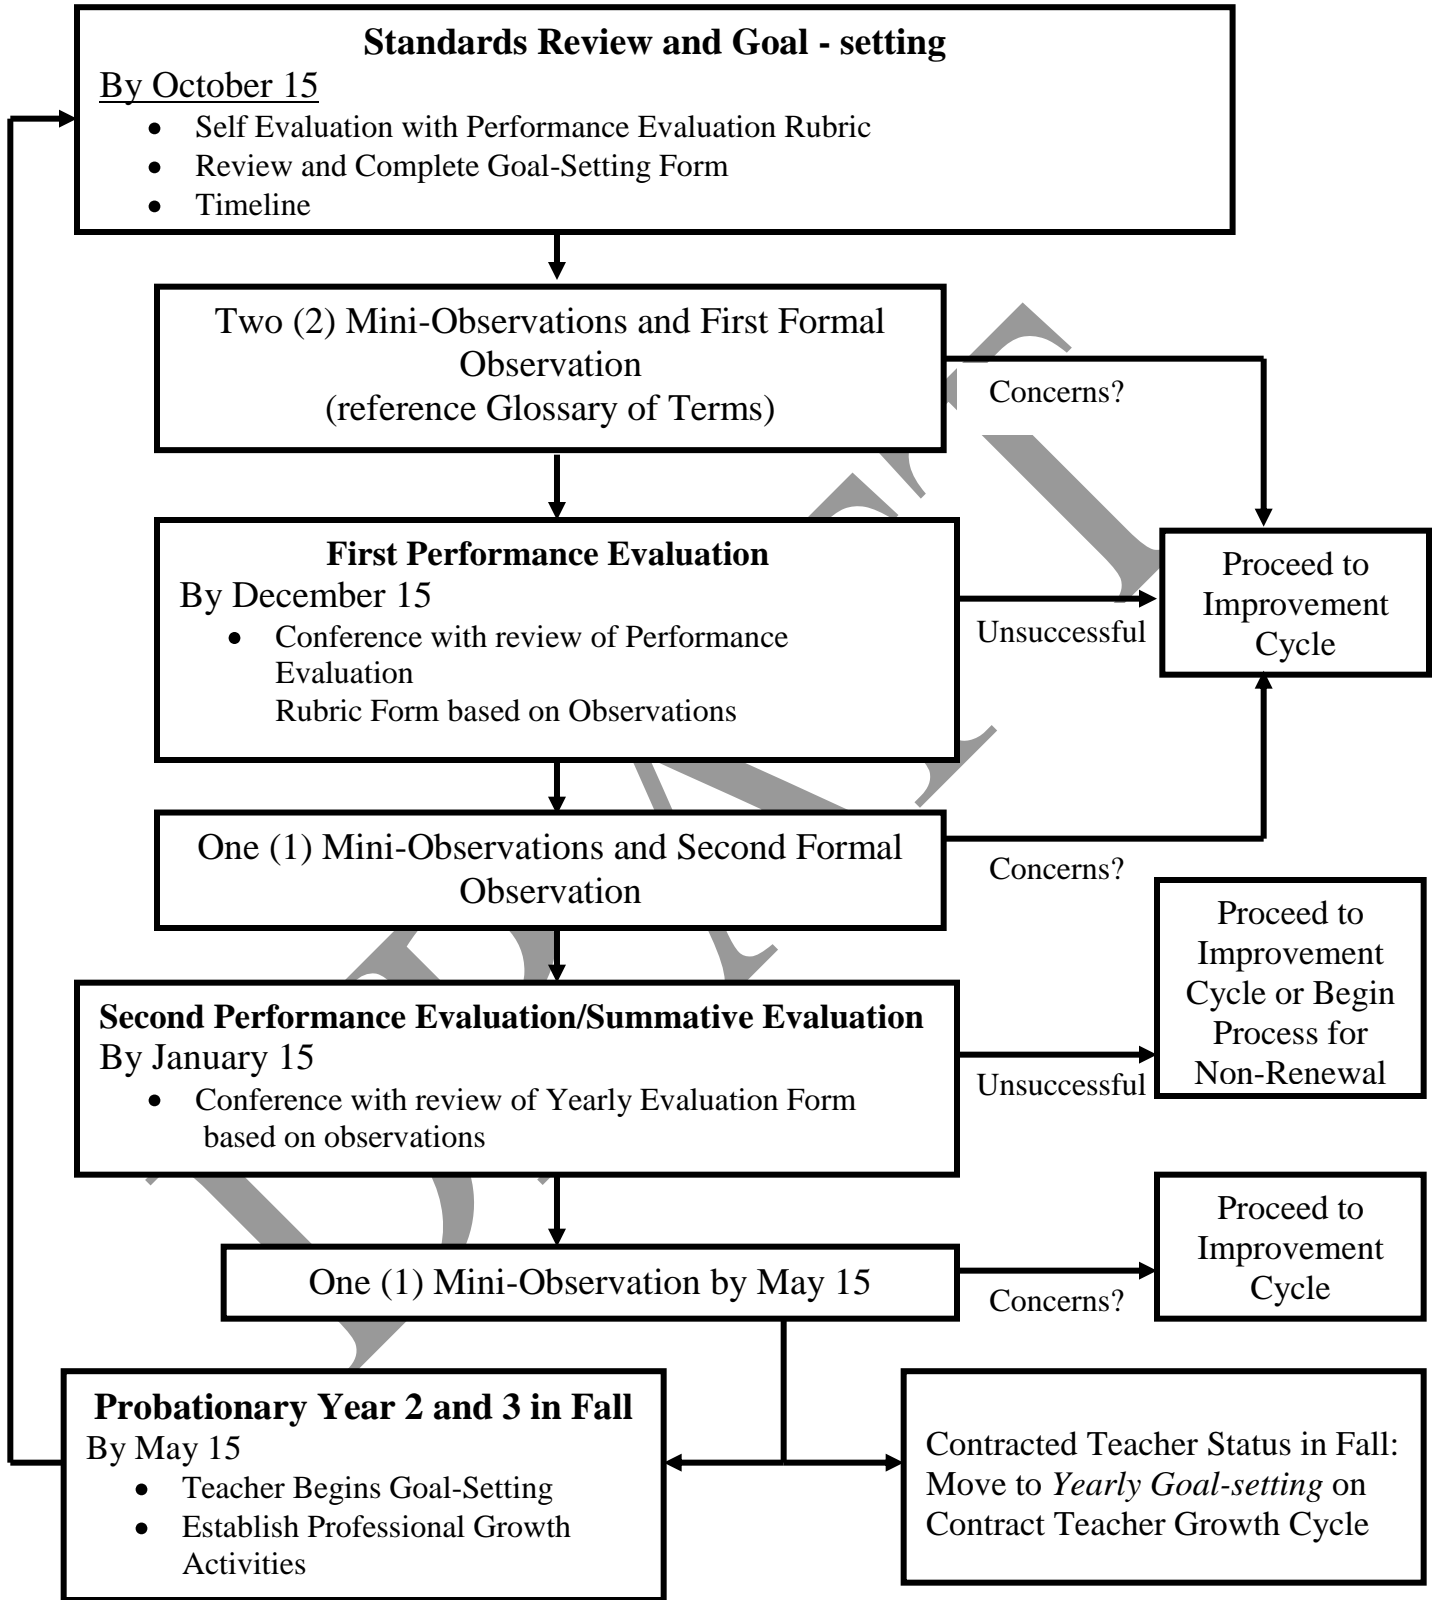

Performance Levels	Definition
Does Not Meet Standard (DM) (1)	Does not meet standard; requires intervention to improve practice.
Developing Proficiency Toward Standard (DP) (2)	Developing proficiency toward meeting standard; shows continuous improvement.
Proficient Relative to Standard (PR) (3)	Proficient relative toward meeting standard; demonstrates effective practice and impact on student learning.
Exceeds Standard (E) (4)	Exceeds standard; highly effective professional practice and impact on student learning.

Timeline: Probationary Educators (Tier One & Two)

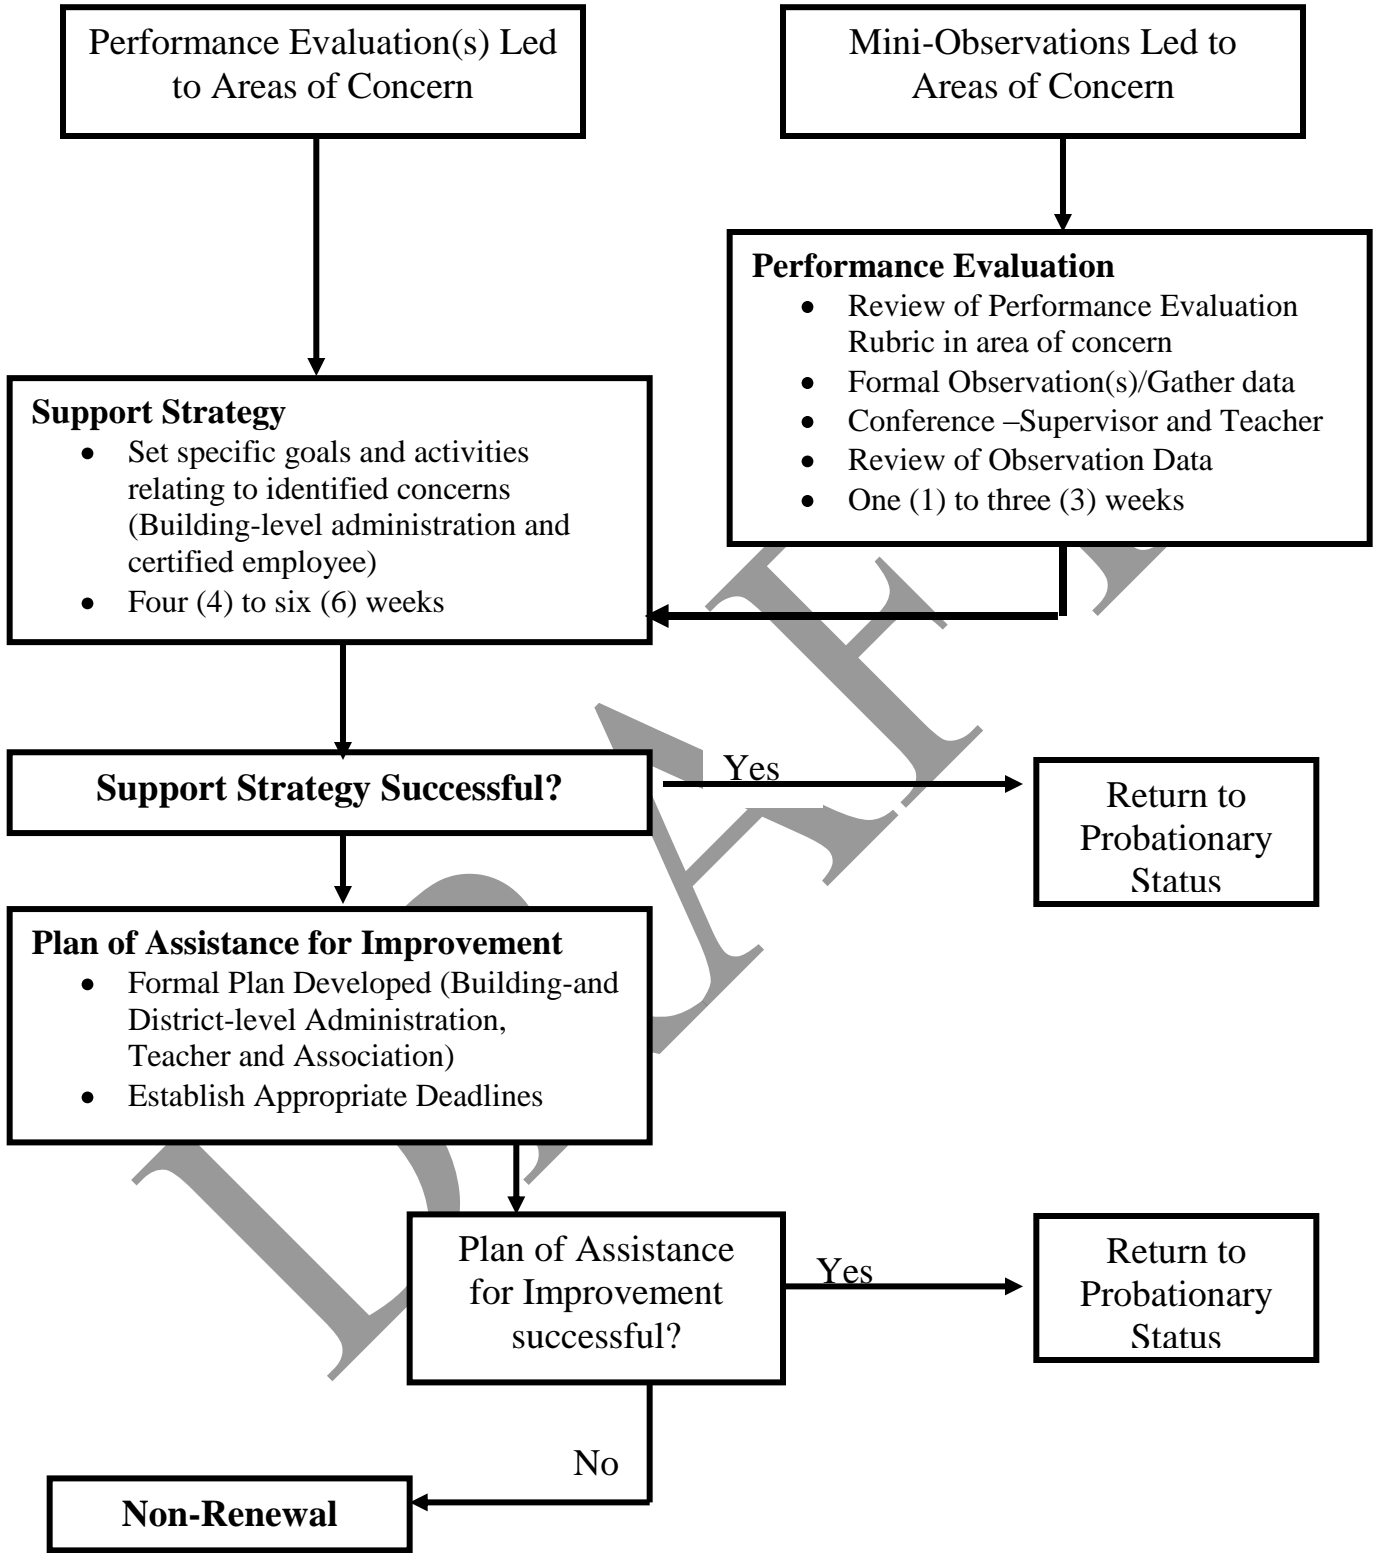

A teacher has probationary status during the first three years in the Sheridan School District. Professional Growth Plans during those three years are carried out within a close collaborative partnership between the teacher and the principal. However, the teacher holds primary responsibility for his or her learning. The administrator and teacher share responsibility for designing and monitoring the program, documenting learning, and reporting progress. The teacher and administrator will share responsibility for meeting the stated timelines.

Target Date	Probationary Teacher
August- By September 15	Self-Evaluation using rubric
By October 15 th	Probationary teacher will complete the self evaluation with the performance evaluation rubric and meet with the building administrator to discuss the teacher's Professional Growth Plan. In this meeting they identify performance goals and growth activities, and the administrator explains PDUs.
By December 15 th	Administrator conducts at least one formal lesson observation of the probationary teacher's classroom and at least two mini observations. The formal observation includes a pre and post observation conference. The administrator gathers data and gives written feedback to the teacher, and the teacher and administrator confer. If there are significant areas of concern, the teacher will be placed on the Structured Support Process.
Mid-Year Review By January 15 th	Administrator has conducted one mini observation and the second formal lesson observation and provides the teacher with feedback regarding performance on standards. If there are significant areas of concern, the teacher will be placed on the Structured Support Process. Administrator makes recommendation for employment status.
February 1	Administrator submits recommendation and documentation of professional growth to the Superintendent.
Mid-February	School board takes action on employment recommendation.
By May 15 th	Probationary teacher and administrator has conducted one mini observation and meet to discuss the next Professional Growth Plan. At this meeting they identify performance goals and growth activities, including reflection on professional growth, and the plan to earn PDUs.

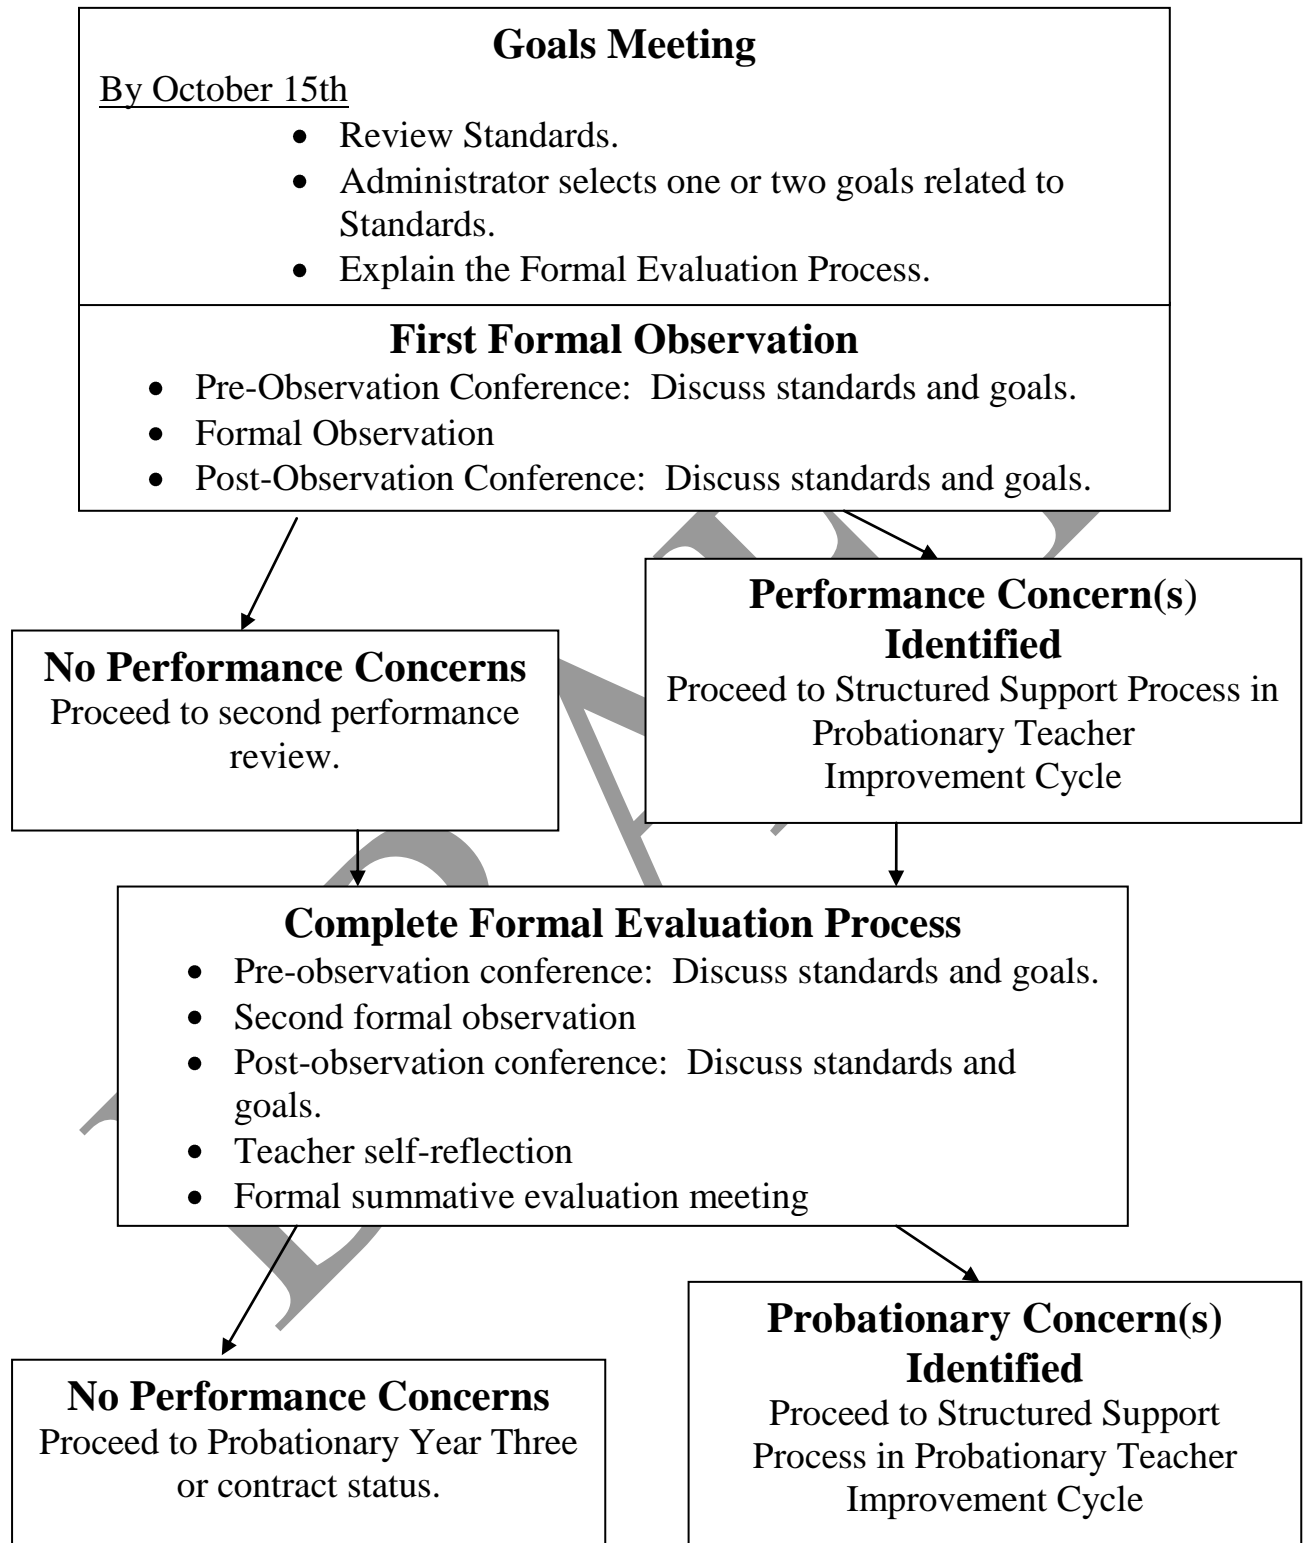

Probationary Educator: Performance Cycle (Tier One)

Probationary Educator: Improvement Cycle

Probationary Educator Formal Evaluation Process: Years Two and Three (Tier Two)

Traditional Evaluation Cycle (Tier One & Two)

Overview: This is an annual cycle mandated for temporary and probationary educators. This cycle is also an option for contract educators at the discretion of their supervisor or is a choice for contract educators who qualify to be on a Self-Directed Evaluation Cycle. This cycle includes one annual goal which is written in collaboration with the educator's supervisor as well as three observations. In this evaluation cycle educators have the greatest amount of direct support from supervisors.

Observations: Within this annual cycle three observations will occur. At least two observations will be a Level 3 Observation. The remaining observation may be a Level 1, 2, or 3.

Level 1: Mini Observations

- Unannounced drop-in of at least 10 minutes.
- Written feedback in a timely manner

Level 2: Informal Observations

- Unannounced drop-in of at least 30 minutes or full lesson, whichever is greater
- Post-conference with written feedback in a timely manner
- Performance evaluation data is collected

Level 3: Formal Observation

- Schedule observation time initiated by educator or supervisor
- Pre-Observation Conference
- Educator informs evaluator of purpose of lesson
- Minimum length of 30 minutes or full lesson, whichever is greater
- Educator and evaluator select/design data collection from appropriate lesson
- Post-conference with a completed Post-Observation Summary Form, in a timely manner
- Performance evaluation data is collected

Goal Setting: Educators will write two (SLO's) Student Learning Objectives and one Professional Growth Goal utilizing the SMART goal strategies based on the Oregon Department of Education adopted Standards which may originate from district, building, department or grade level goals or individual educator's goal. When writing the Professional Growth goal, educators are to use the data from the Self-Reflection Worksheet (required), the Traditional Cycle: Goals for Professional Growth (required), and the —How to Write a SMART Goal instructions. The goal is agreed upon and will be submitted to the supervisor no later than October 15.

Evaluation: By March 1 of each school year, educators will receive a written evaluation from their supervisor on the Supervisor Evaluation Summary Form (required). Educators will also be asked to complete an End-of- Year Self-Reflection for Goals Form (required by March 10). Both forms are official and will become part of the educators' personnel files.

Required Documentation: Goals determined in the fall will be written on the Professional Growth Plan and submitted for inclusion in the educator's personnel file. Data from formal and informal observations must be shared with the educator. For each informal and formal observation, a copy of the Post-Observation Summary with original signatures of the educator and the administrator must be filed in the educator's personnel file at district office. The educator's Summative Self-Reflection will be shared at the final evaluation conference and kept in the educator's working file at the building level. The Supervisor Summative Evaluation will be documented on the educator evaluation form and filed in the educator's personnel file at the district office.

Probationary Educator: Evaluation Cycle

Self-Reflection Worksheet

Carefully reflect on your teacher performance in all four domains. Complete the Self-Reflection by using the Standards of Professional Practice in this document.

Bring this completed form to the goals conference with your administrator.

Key: DN (1)—Does not meet Standard DP (2)—Developing Proficiency Toward Standard PR (3)—Proficient Relative to Standard E (4)—Exceeds Standard

Domain 1				The Learner and Learning	Comments
DNM	DP	PR	E	Standard 1:	
1	2	3	4	Learner Development	
				1.1 Demonstrates an understanding of how children/adolescents learn and develop.	
				1.2 Designs and implements developmentally appropriate instruction.	
DNM	DP	PR	E	Standard 2:	
1	2	3	4	Learning Differences	
				2.1 Makes appropriate and timely provisions for individual students with particular learning differences or needs	
				2.2 Incorporates tools of language development into planning and instruction to support development of academic language proficiency.	
DNM	DP	PR	E	Standard 3:	
1	2	3	4	Learning Environments	
				3.1 Organizes, allocates, and manages the resources of time, space, and attention to actively and equitably engage learners.	
				3.2 Communicates with students in ways that respect unique backgrounds and support a positive classroom climate.	
				3.3 The teacher establishes and monitors elements of a safe and productive learning environment, including norms, expectations, routines and organizational structures.	

Domain 2				Content	Comments
DNM	DP	PR	E	Standard 4:	
1	2	3	4	Content Knowledge	
				4.1 Maintains deep knowledge of content standards and learning professions in the discipline(s) and setting(s) s/he teaches.	
				4.2 Integrates culturally relevant content to build on learner's background knowledge.	
				4.3 Engages students in learning experiences in the discipline(s) s/he teaches that encourage learners to understand, question and analyze ideas from diverse perspectives so that they master the content.	
DNM	DP	PR	E	Standard 5:	
1	2	3	4	Application of Content	
				5.1 Engages learners in applying content knowledge to encourage interdisciplinary connections to real world issues.	
				5.2 Engages learners in critical and creative thinking, encouraging new ideas and approaches.	

Domain 3				Instructional Practice	Comments
DNM	DP	PR	E	Standard 6:	
1	2	3	4	Assessment	
				6.1 Designs and/or selects assessments that match learning objectives with assessment methods so that learners can demonstrate their knowledge and skills.	
				6.2 Works independently and collaboratively to examine formative and summative assessment data to identify student learning needs and strengths to inform instruction.	
				6.3 Engages learners in understanding and identifying quality work and provides them with effective descriptive feedback to guide their progress.	
DNM	DP	PR	E	Standard 7:	
1	2	3	4	Planning for Instruction	
				7.1 Designs learning experiences aligned to curriculum standards and student needs.	
				7.2 Evaluates and adjusts plans based on student outcomes.	
				7.3 Plans collaboratively with colleagues and/or specialists to design instruction to meet unique learning needs.	
DNM	DP	PR	E	Standard 8:	
1	2	3	4	Instructional Strategies	
				8.1 Varies role in the instructional process (e.g., instructor, facilitator, guide, audience)	
				8.2 The teacher understands how content and skill development can be supported by media and technology, and knows how to evaluate these resources for quality, accuracy, and effectiveness.	
				8.3 Uses a variety of instructional strategies to support and expand learners' communication with various audiences through speaking, listening, reading, writing, and other modes.	
				8.4 Poses questions to stimulate discussion that serve different purposes, such as probing for learner understanding, helping learners articulate their ideas and thinking processes, stimulating curiosity, and helping learners to question.	
				8.5 Engages all learners in developing higher order thinking skills and meta-cognitive processes.	

Domain 4				Professional Responsibility	Comments
DNM	DP	PR	E	Standard 9:	
1	2	3	4	Professional Learning & Ethical Practice	
				9.1 Engages in ongoing learning opportunities to develop and apply knowledge and skills.	
				9.2 Uses multiple sources of evidence (e.g., student growth data, self-reflection tools, classroom observations) to self-assess professional practice.	
				9.3 Demonstrates knowledge of legal and ethical rights and responsibilities.	
DNM	DP	PR	E	Standard 10:	
1	2	3	4	Leadership and Collaboration	
				10.1 Takes an active role on the instructional team.	
				10.2 Works collaboratively with students and families to support and learner development and achievement.	
				10.3 Models effective practice and demonstrates shared leadership (either formally or informally) in support of school and program goals.

Probationary Educator: Traditional Evaluation Cycle

SUMMATIVE SELF-REFLECTION

(Educators fill out and bring to end-of-year conference)

1. Identify and describe your level of performance based on the rubrics for the Standards of Professional Practice.

Carefully reflect on your teaching performance in all four Standards. Complete the Self-Reflection by using the Standards of Professional Practice in the Appendix of this document.

Bring this completed form to the goals conference with your administrator.

Key: DN (1)—Does not meet Standard DP (2)—Developing Proficiency Toward Standard PR (3)—Proficient Relative to Standard E (4)—Exceeds Standard

Teacher _____ School _____ Assignment _____
Observer _____ Pre-Conference Date/Time _____
Observation Date/Time _____ Post-Conference Date/Time _____
Contract Status _____

1. What is your instructional objective(s)? What do you want your students to know and do as a result of your instruction?
2. Explain how this helps to meet district power standards. What standards does it meet?
3. Briefly describe instructional activities and materials that you plan to use. How will the curriculum be taught?
4. How will you provide differentiated instruction to meet the range of needs of your students (developmental and ability levels)?
5. Describe assessment procedures that will be used. How will you know that your students have met the objectives of the lesson?
Observation objectives (something specific that you would like the observer to focus on):

6. Explain the difficulties students typically experience in this area and how you plan to accommodate for the special needs of your students/diverse population in your class.

a. How do you plan to anticipate those difficulties, enabling your students to persist with the work?

7. State the Standard(s) that your lesson will address.

a. Relate to other content areas

8. Explain how you plan to assess student achievement of the goals. (Test, performance task, scoring guides.)

a. What procedures will you use?

b. What products will the students produce?

9. Explain anything else the observer should know about your class or your classroom procedures.

Sheridan School District Quality Instruction Performance Summary

Teacher: _____ Date: _____

The Oregon Matrix for Summative Evaluations

In the Oregon Matrix, Professional Practice (PP) and Professional Responsibilities (PR) intersects with Student Learning and Growth (SLG) culminating in a summative performance level which leads to a Professional Growth Plan for the educator. When there is a discrepancy between the PP/PR level and SLG level, further inquiry is triggered to explore and understand the reasons for the discrepancy.

Y-AXIS: Combined Rating on Professional Practice and Professional Responsibilities (PP/PR) Domains I - IV	Exceeds Standard	Proficient Relative to Standard	Proficient Relative to Standard or Exceed Standard	Exceeds Standard	Exceeds Standard
	Proficient Relative to Standard	Developing Proficiency Toward Standard or Proficient Relative to Standard	Proficient Relative to Standard	Proficient Relative to Standard	Proficient Relative to Standard
	Developing Proficiency Toward Standard	Developing Proficiency Toward Standard	Developing Proficiency Toward Standard	Developing Proficiency Toward Standard	Developing Proficiency Toward Standard or Proficient Relative to Standard
	Does Not Meet Standard	Does Not Meet Standard	Does Not Meet Standard	Does Not Meet Standard or Developing Proficiency Toward Standard	Developing Proficiency Toward Standard
	Does Not Meet Standard	Does Not Meet Standard	Developing Proficiency Toward Standard	Proficient Relative to Standard	Exceeds Standard
X-AXIS: Rating on Student Learning and Growth Domain V					

Performance Levels	Definitions of Performance as Applied to Standards of Professional Practice
Does Not Meet Standard	Does not meet standards; performs below the expectations for good performance under this standard; requires direct intervention and support to improve practice
Developing Proficiency Toward Standard	Making sufficient progress toward meeting this standard; meets expectations for good performance most of the time and shows continuous improvement; expected improvement through focused professional learning and growth plan
Proficient Relative to Standard	Consistently meets expectations for good performance under this standard; demonstrates effective practices and impact on student learning; continues to improve professional practice through ongoing professional learning
Exceeds Standard	Consistently exceeds expectations for good performance under this standard; demonstrates highly effective practices and impact on student learning; continued expansion of expertise through professional learning and leadership opportunities

Calculating PP/PR Performance Level (Y-Axis)
<ul style="list-style-type: none"> • Add up all component scores for total points possible; • Divide by number of components (based on rubric); • Get a rating between 1 and 4; • Use the following thresholds to determine PP/PR level: <ul style="list-style-type: none"> ○ 3.6 - 4.0 = 4 ○ 2.81-3.59 =3 ○ 1.99 – 2.8 = 2 * ○ < 1.99 = 1 <p>*PP/PR Scoring Rule: If the educator scores two 1's in any PP/PR component and his/her average score falls between 1.99-2.499, the educator's performance level cannot be rated above a 1.</p>

DRAFT

Student Learning Goal (SLG) Scoring Rubric

The SLG scoring rubric is used for scoring individual SLG goals based on evidence submitted by the teacher and supervisor/evaluator. This rubric applies to both teacher and administrator evaluations.

Exceeds Standard	This category applies when approximately 90% of students met their target(s) and approximately 25% of students exceeded their target(s). This category should only be selected when a substantial number of students surpassed the overall level of attainment established by the target(s). Goals are very rigorous yet attainable, and differentiated (as appropriate) for all students.
Proficient Relative to Standard	This category applies when approximately 90% of students met their target(s). Results within a few points, a few percentage points, or a few students on either side of the target(s) should be considered “met”. The bar for this category should be high and it should only be selected when it is clear that all or almost all students met the overall level of attainment established by the target(s). Goals are rigorous yet attainable and differentiated (as appropriate) for all students.
Developing Proficiency Toward Standard	This category applies when 70-89% of students met their target(s), but those that missed the target missed by more than a few points, a few percentage points or a few students. Goals are attainable but might not be rigorous or differentiated (as appropriate) for all students.
Does Not Meet Standard	This category applies when less than 70% of students meet their target(s). If a substantial proportion of students did not meet their target(s), the SLG was not met. Goals are attainable, but not rigorous. This category also applies when results are missing or incomplete.

Calculating SLG Performance Level: X-Axis

- The SLG performance level is based on two SLG goals; educators on a two-year cycle will select two of their four goals
- Score SLG goals using the SLG Scoring Rubric;
- Get a rating between 1 and 4;
- Use the thresholds below to determine SLG level:

Level 4	Level 3	Level 2	Level 1
You must score: <ul style="list-style-type: none"> • 4 on both goals 	You could score: <ul style="list-style-type: none"> • 3 on both goals, or • 3 on one goal & 4 on one goal, or • 4 on one goal & 2 on one goal 	You could score: <ul style="list-style-type: none"> • 2 on both goals, or • 2 on one goal & 3 on one goal, or • 3 on one goal & 1 on one goal, or • 4 on one goal & 1 on one goal 	You could score: <ul style="list-style-type: none"> • 1 on both goals, or • 1 on one goal & 2 on one goal

Determining Type of Professional Development

After the educator performance level has been determined on the matrix using the professional practices and professional responsibilities performance level along with the SLG performance level, use this table to determine the type of professional development the teacher will receive the following year.

Educator Performance Level	Type of Professional Development
Does Not Meet Standard	<ul style="list-style-type: none"> • Directed - The evaluator directs the educator's Professional Growth Plan /professional goal(s). This plan should involve a focus on the most important area(s) to improve educator performance.
Developing Proficiency Toward Standard	<ul style="list-style-type: none"> • Consulting - The evaluator consults with the educator and uses the information gathered to inform the educator's Professional Growth Plan /professional goal(s). This plan is more evaluator directed but does take into consideration the voice of the educator in developing the plan/professional goal(s).
Proficient Relative to Standard	<ul style="list-style-type: none"> • Collegial - The educator and evaluator collaboratively develop the educator's Professional Growth Plan/professional goal(s). The educator and evaluator have an equal voice in developing the plan /professional goal(s).
Exceeds Standard	<ul style="list-style-type: none"> • Facilitative - The educator leads the conversation and chooses the focus of the Professional Growth Plan and professional goal(s) as the educator and evaluator collaborate on the plan/professional growth goal(s).

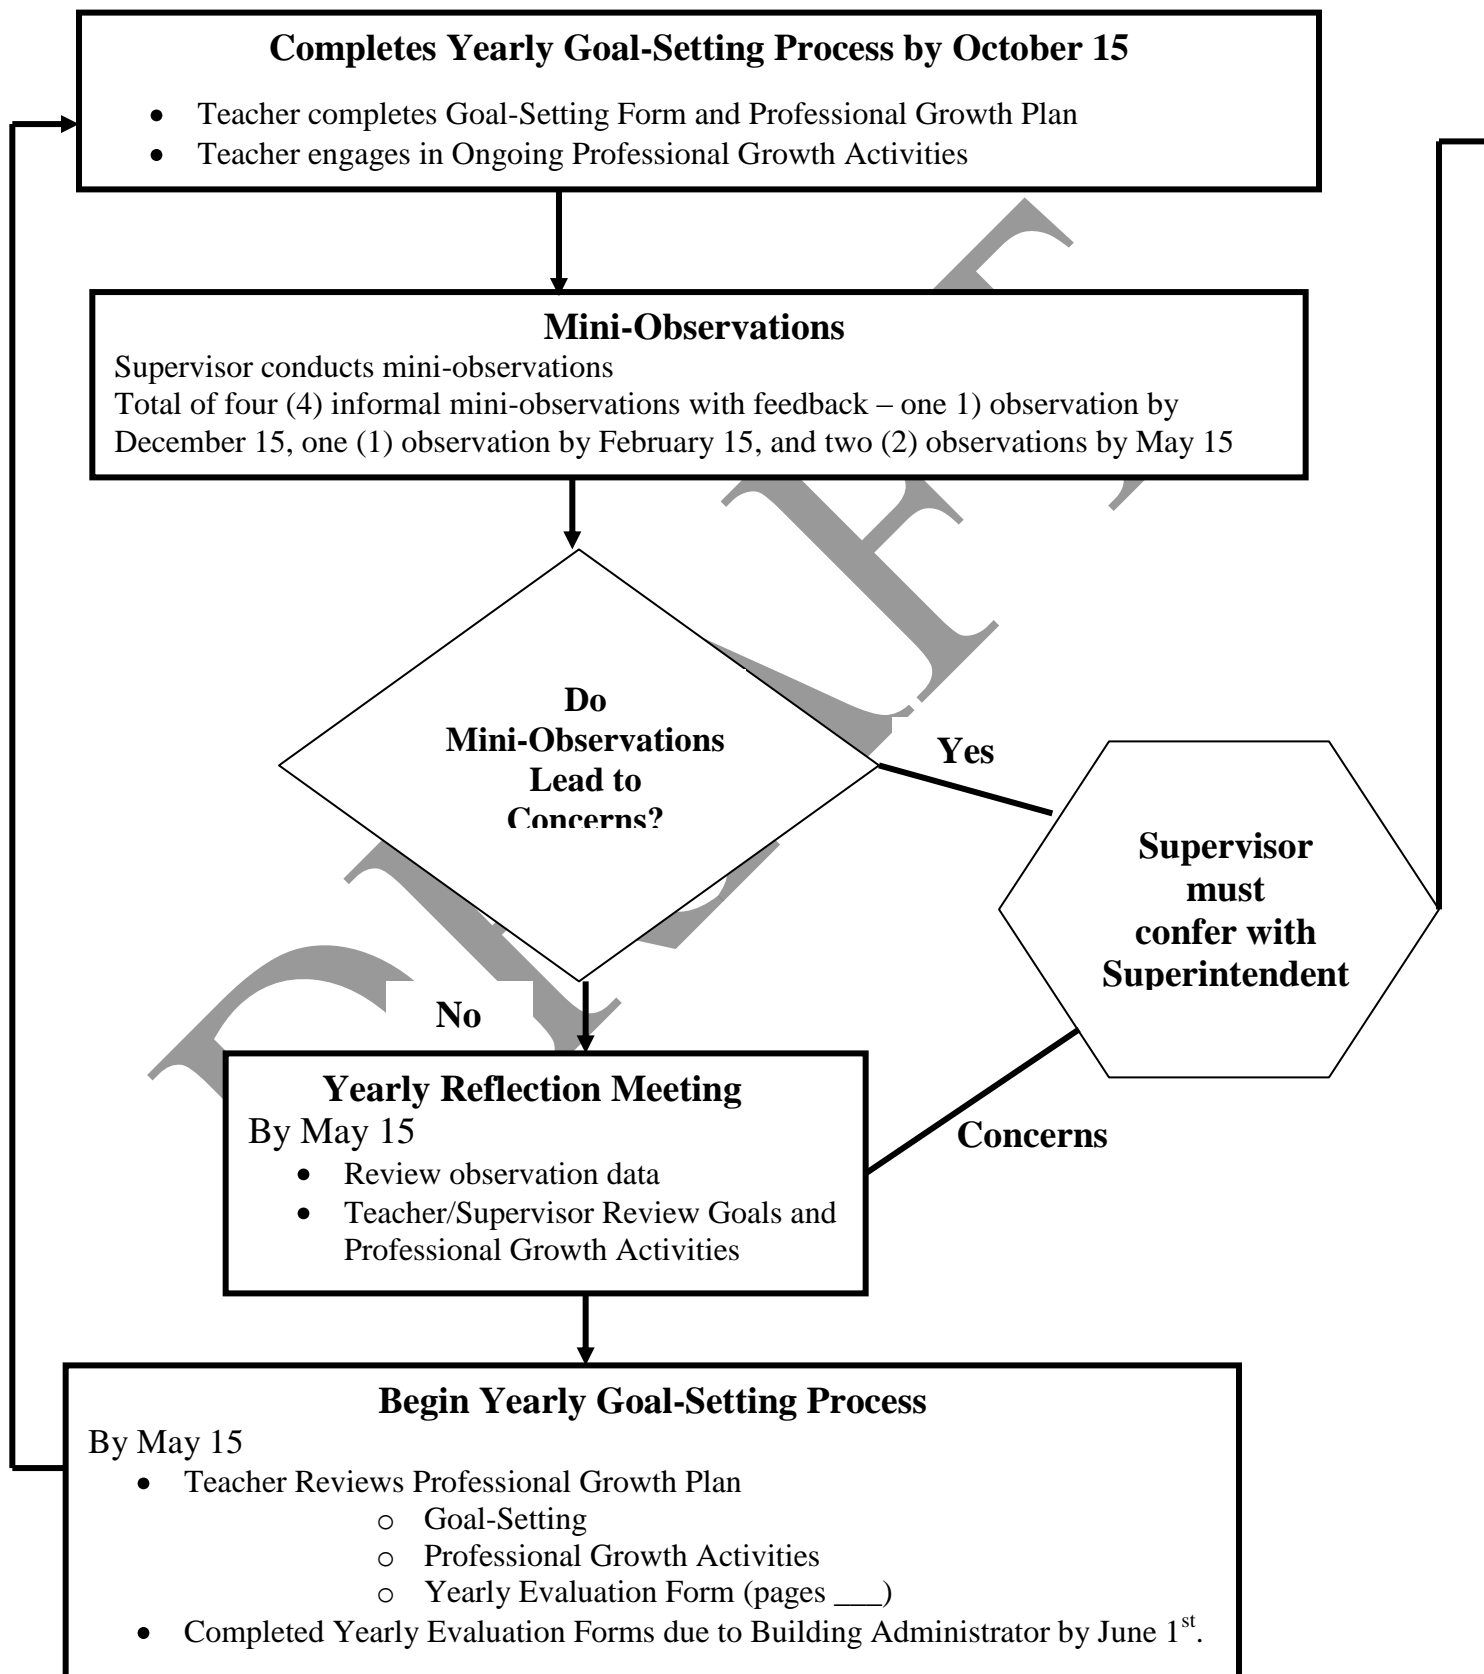

Timeline: Contract Educator (Tier Three)

A teacher reaches contract status after three years of successful teaching (providing the teacher is at or above .5 FTE) in the Sheridan School District. Professional Growth Plans for contract teachers are initiated and developed in collaboration with the principal and, in some cases, with other colleagues. The Professional Growth Plan for contract teachers is open to multiple options allowing the teacher to personalize his or her learning. The teacher and administrator will work together to develop this plan.

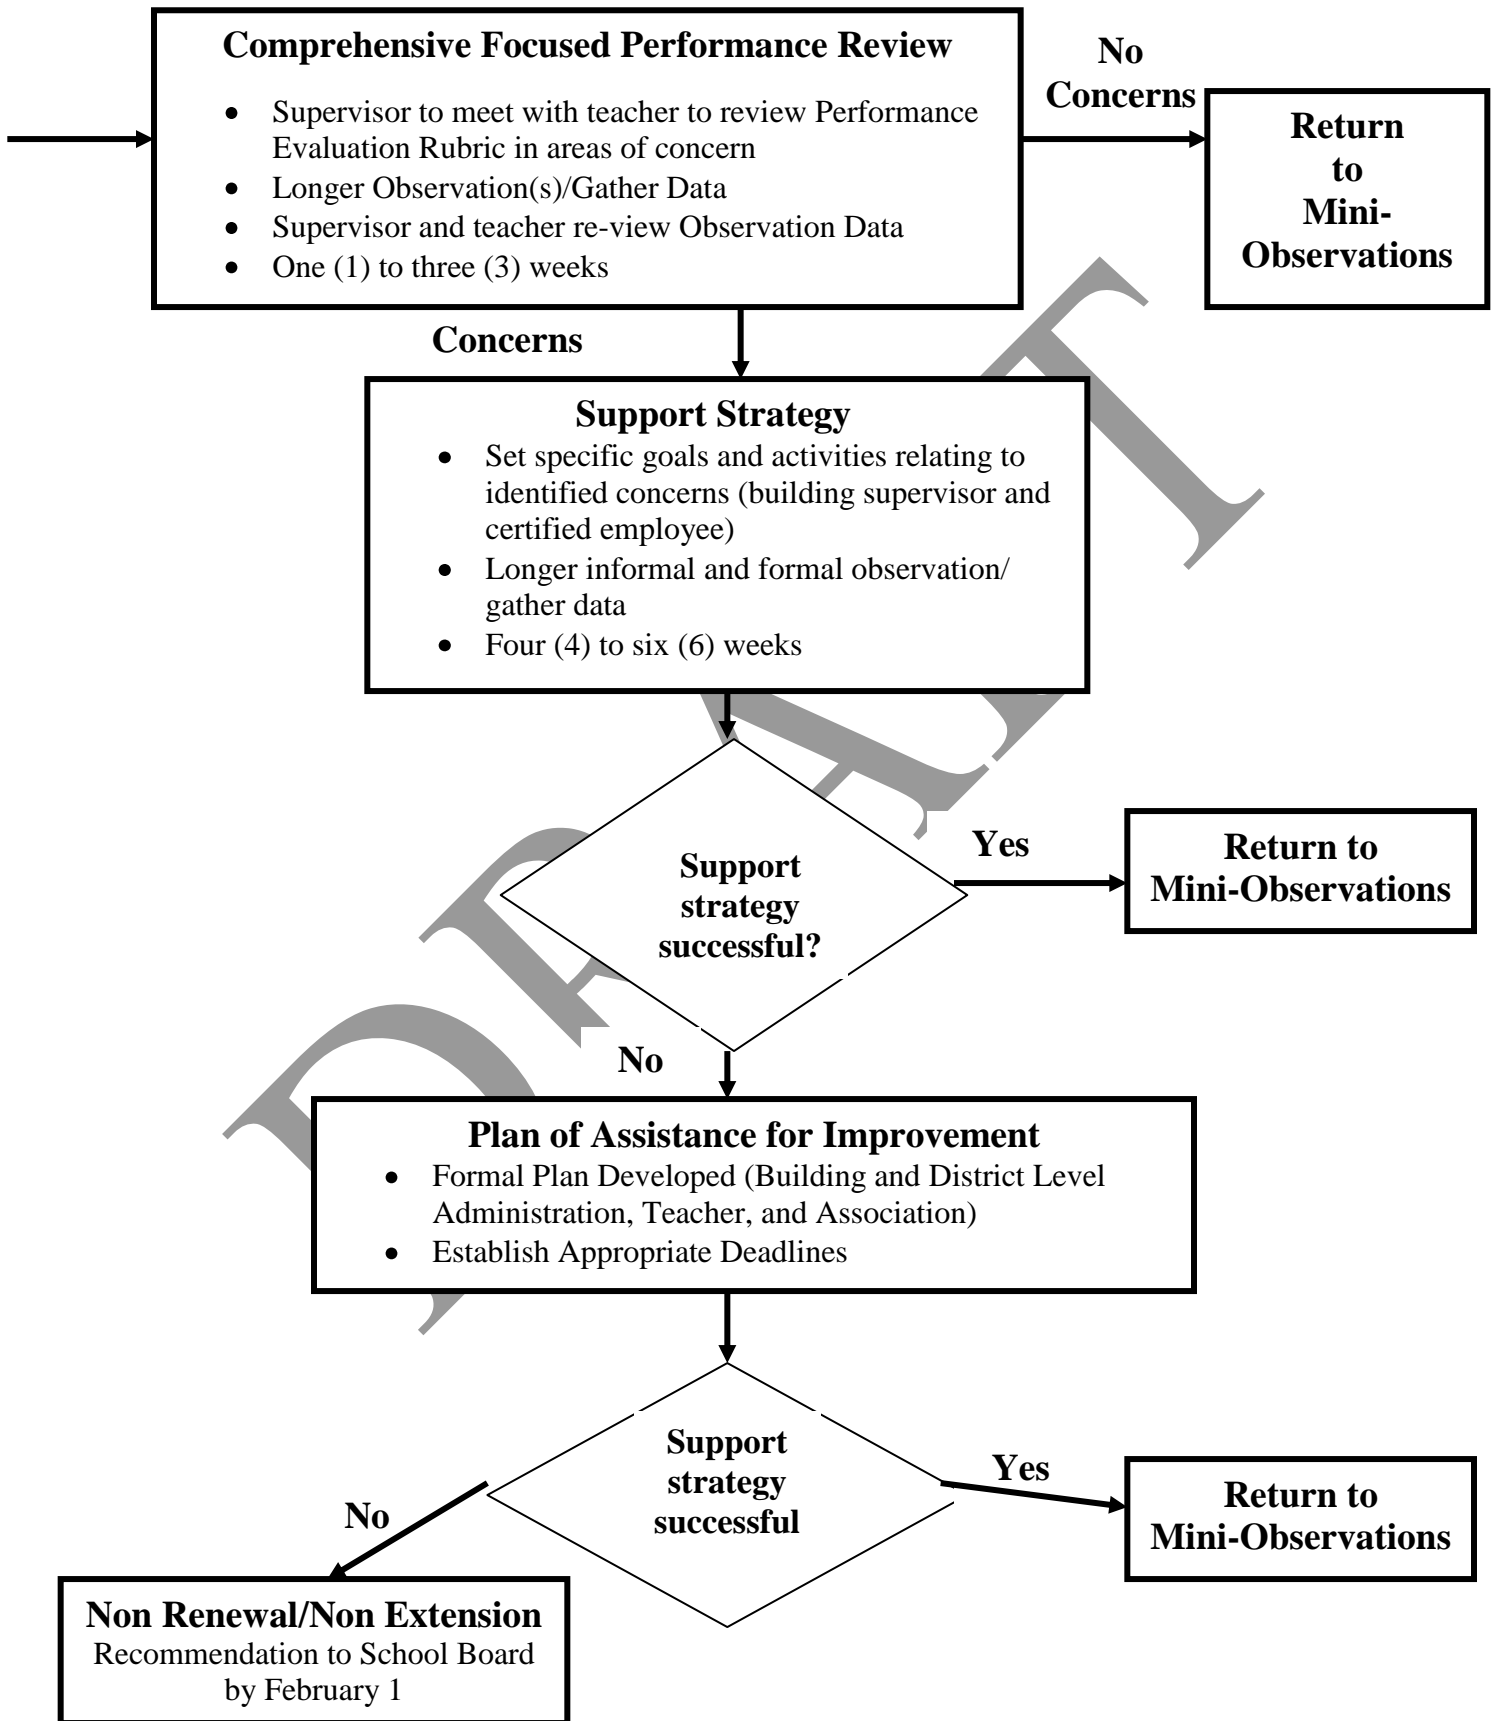

The teacher holds the primary responsibility for his or her professional learning. The teacher will collaborate with the administrator to design the plan, engage in learning, document the learning, and report progress. The teacher and administrator will share responsibility for meeting the stated timelines.

Year One Target Date	Contract Teachers
August – By September 15 th	Self-Evaluation using rubric
By October 15 of first year	Teacher and administrator confer to select performance goal(s) and to identify a Professional Growth Plan including a reflection on professional growth and a plan to earn PDUs.
September - January	Administrator conducts at least one formal lesson observation during the two year cycle. The formal observation includes a pre and post observation conference. The administrator gathers data and gives written feedback, and the administrator and teacher confer.
On-going	Administrator also will conduct informal observations in the contract teacher’s classroom each year.
Jan.-Feb. Mid- Year Review	Teacher and administrator confer regarding professional growth plan progress. Administrator makes recommendations to Superintendent for employment status.
February 1	Administrator submits recommendation and documentation of professional growth to the Superintendent.
Mid-February	School board takes action on employment recommendation.
May 15	If the teacher is on Administrator-Selected Goals, the teacher and administrator confer regarding professional growth plan progress. Evidence of direct consultation and/or multiple observation documentation will be reviewed and recorded. Decision will be made regarding the type of Professional Growth Plan for the following year.
Year Two Target Date	Contract Teachers
August By September 15 th	Self-Evaluation using rubric
By October 15	Teacher and administrator confer to review the teacher’s goals and reflections.
September - January	Administrator conducts at least one formal lesson observation during the two year cycle. The formal observation includes a pre and post observation conference. The administrator gathers data and gives written feedback, and the administrator and teacher confer.
On-going	Administrator also will conduct informal observations in the contract teacher’s classroom each year.
February 1	Administrator makes recommendation to Superintendent for employment status.
Mid-February	School board takes action on employment recommendation.
April—October	Teacher and administrator meet to discuss and identify Professional Growth Plan including reflection on professional growth.
June 1	Formal evaluation submitted to Superintendent.

Contract Educator:

Performance Evaluation Flowchart

Contract Educator: Evaluation Cycle

Overview: This two year cycle is available to eligible contract educators. This cycle includes two long term goals and two observations.

The purpose of the Contracted Educator Evaluation Cycle is to provide a structure through which educators may grow professionally, while receiving guidance from the administrator in targeted areas. The focus of the plan is based on the educator's performance relative to the standards and on the educator's reflection of professional growth needs.

Contracted Educator Evaluation Cycle enables educators and administrators to jointly establish plans which identify goals, implementation strategies, timelines, status checkpoints, resources and support. Building and district staff will be available to assist educators in developing their plans. There are two parts to Contracted Educator Evaluation Cycle:

- the targeted standards are improvement and
- self-selected professional growth goals.

Educators and administrators share responsibility for monitoring their goals and will meet with their administrator at least once per year to discuss the status of the goals and consider modifications and/or extensions as well as to reflect on growth experiences.

During an educator's Evaluation Cycle, an administrator may return individual educators to traditional supervision, if the educator's performances relating to the job description or the Standards of Professional Growth indicate the need.

Observations: Within the two-year cycle, a minimum two observations will occur. One observation will be a Level 3 Observation. The other observation may be a Level 1, 2, or 3.

Level 1: Mini-Observations

- Unannounced drop-in of at least 10 minutes.
- Written feedback in a timely manner

Level 2:

- Unannounced drop-in of at least 30 minutes or full lesson, whichever is greater
- Post-conference with written feedback in a timely manner
- Performance evaluation data is collected

Level 3: Formal Observation

- Schedule observation time initiated by educator or supervisor
- Pre-Observation Conference
- Educator informs evaluator of purpose of lesson
- Minimum length of 30 minutes or full lesson, whichever is greater
- Educator and evaluator select/design data collection from appropriate lesson
- Post-conference with a completed Post-Observation Summary Form, in a timely manner
- Performance evaluation data is collected

Goal Setting: At the beginning of the two year cycle, the educator will complete the Self-Reflection Worksheet identifying areas of strength and areas for growth to be shared with the supervisor. The supervisor will provide feedback to educators about their progress towards meeting the standards of professional practice. The feedback will be derived from past evaluations and the observation process. The supervisor will identify the performance standards that need additional growth and target goals using the indicators. The educator and supervisor will discuss activities, timelines, and methods for monitoring progress.

In collaboration with the supervisor, the educator will provide one goal written using the SMART Goal format based on the Oregon Framework for Teacher Evaluation and Support Systems Standards and which may originate from district, building, department, or grade level goals. When writing the goal, educators are to use the data from the Self-Reflection Worksheet (required), the Contracted Evaluation Cycle for Professional Growth Form (required) and the “How to write a SMART Goal” instruction. Goals are to be submitted to the supervisor no later than October 15 in year one of the cycle. Educators on this cycle have the option to collaborate with their supervisor to change or modify the goal each year.

The Self-selected Goal for Professional Growth

As educators will self select a professional growth goal that will reflect a personal desire for improvement in an area of interest or need to support student learning. They will identify the process to be used and the product to be developed. The process used or product developed should match the goal(s) or primary area of focus and reflect specific a specific standard. Since the purpose of the plan is for inquiry, analysis and reflection, program development, or development of the profession, educators may wish to utilize one or more of the following approaches:

Workshops, Staff Developments
Reflective Journals
Collaborative Action Research
Action Research
Video and/or Audio Analysis

Mentoring
Seeking Mentoring
Peer Coaching
Teacher Portfolio
Professional Learning Community Involvement
Projects

The decision about the approach an educator pursues in order to grow professionally and the component of the plan is mutually agreed upon by educator and administrator.

Each self-selected goal will improve the performance of the educator as a professional. Since each plan is based on the individual reflection of their current practice and supervisor feedback, the plans will look considerable different from each other. Although the plans will be quite different, the areas of focus or goal will fall within one of the standards of professional practice.

Monitoring the Plan

The Contracted Educator Cycle includes several checkpoints whereby educator, administrator, and/or colleagues discuss progress and provide support. If revisions are made, the revisions should be noted here. Administrators may ask for revisions if the plan is completed early or does not initially represent a two-year effort.

Educators will meet with their administrators periodically and at least once annually to summarize the outcome of the plan and discuss options. The administrator and the educator share responsibility for monitoring implementation and assessing progress. As the educator reflects upon personal growth, so should be administrator. These conferences must be noted on the *Status Checkpoint/Modification Log*.

Evaluation of Guided Evaluation Cycle

At the end of each year, the educator will complete the Summative Self-Reflection and the supervisor will complete the Supervisor Evaluation Summary. The educator completes the Summative Self-reflection component of the evaluation prior to the administrator completing the summary. Educators may include other documents or products identified in the plan to support the required written self-reflection. The administrator will submit a copy of the Post Conference Summary (2), the Contracted Educator Professional Growth Plan and The Supervisor Evaluation Summary for inclusion in the educator’s personnel file by June 15 at the end of each two-year cycle.

Contract Educator: Evaluation Cycle Self-Reflection Worksheet

Carefully reflect on your teaching performance in all four domains. Complete the Self-Assessment by using the Standards of Professional Practice in this document. **Bring this completed form to the goals conference with your administrator. Contract Status _____

1. What is your instructional objective(s)? What do you want your students to know and do as a result of your instruction?
2. Explain how this helps to meet district power standards. What standards does it meet?
3. Briefly describe instructional activities and materials that you plan to use. How will the curriculum be taught?
4. How will you provide differentiated instruction to meet the range of needs of your students (developmental and ability levels)?
5. Describe assessment procedures that will be used. How will you know that your students have met the objectives of the lesson?
Observation objectives (something specific that you would like the observer to focus on):

6. Explain the difficulties students typically experience in this area and how you plan to accommodate for the special needs of your students/diverse population in your class.

b. How do you plan to anticipate those difficulties, enabling your students to persist with the work?

7. State the Standard(s) that your lesson will address.

b. Relate to other content areas

8. Explain how you plan to assess student achievement of the goals. (Test, performance task, scoring guides.)

a. What procedures will you use?

b. What products will the students produce?

9. Explain anything else the observer should know about your class or your classroom procedures.

Date of Goal Conference _____ Date of Final Conference _____

Carefully reflect on your teaching performance in all four standards. Complete the Self-Assessment by using the Standards of Professional Practice in this document. Prepare to discuss your performance in all standards during the goals conference with your administrator.

Key: DN (1)—Does not meet Standard DP (2)—Developing Proficiency Toward Standard PR (3)—Proficient Relative to Standard E (4)—Exceeds Standard

Domain 1				The Learner and Learning	Comments
DNM	DP	PR	E	Standard 1:	
1	2	3	4	Learner Development	
				1.1 Demonstrates an understanding of how children/adolescents learn and develop.	
				1.2 Designs and implements developmentally appropriate instruction.	
DNM	DP	PR	E	Standard 2:	
1	2	3	4	Learning Differences	
				2.1 Makes appropriate and timely provisions for individual students with particular learning differences or needs	
				2.2 Incorporates tools of language development into planning and instruction to support development of academic language proficiency.	
DNM	DP	PR	E	Standard 3:	
1	2	3	4	Learning Environments	
				3.1 Organizes, allocates, and manages the resources of time, space, and attention to actively and equitably engage learners.	
				3.2 Communicates with students in ways that respect unique backgrounds and support a positive classroom climate.	
				3.3 The teacher establishes and monitors elements of a safe and productive learning environment, including norms, expectations, routines and organizational structures.	

Domain 2				Content	Comments
DNM	DP	PR	E	Standard 4:	
1	2	3	4	Content Knowledge	
				4.1 Maintains deep knowledge of content standards and learning professions in the discipline(s) and setting(s) s/he teaches.	
				4.2 Integrates culturally relevant content to build on learner's background knowledge.	
				4.3 Engages students in learning experiences in the discipline(s) s/he teaches that encourage learners to understand, question and analyze ideas from diverse perspectives so that they master the content.	
DNM	DP	PR	E	Standard 5:	
1	2	3	4	Application of Content	
				5.1 Engages learners in applying content knowledge to encourage interdisciplinary connections to real world issues.	
				5.2 Engages learners in critical and creative thinking, encouraging new ideas and approaches.	

Domain 3				Instructional Practice	Comments
DNM	DP	PR	E	Standard 6:	
1	2	3	4	Assessment	
				6.1 Designs and/or selects assessments that match learning objectives with assessment methods so that learners can demonstrate their knowledge and skills.	
				6.2 Works independently and collaboratively to examine formative and summative assessment data to identify student learning needs and strengths to inform instruction.	
				6.3 Engages learners in understanding and identifying quality work and provides them with effective descriptive feedback to guide their progress.	
DNM	DP	PR	E	Standard 7:	
1	2	3	4	Planning for Instruction	
				7.1 Designs learning experiences aligned to curriculum standards and student needs.	
				7.2 Evaluates and adjusts plans based on student outcomes.	
				7.3 Plans collaboratively with colleagues and/or specialists to design instruction to meet unique learning needs.	
DNM	DP	PR	E	Standard 8:	
1	2	3	4	Instructional Strategies	
				8.1 Varies role in the instructional process (e.g., instructor, facilitator, guide, audience)	
				8.2 The teacher understands how content and skill development can be supported by media and technology, and knows how to evaluate these resources for quality, accuracy, and effectiveness.	

				8.3 Uses a variety of instructional strategies to support and expand learners' communication with various audiences through speaking, listening, reading, writing, and other modes.	
				8.4 Poses questions to stimulate discussion that serve different purposes, such as probing for learner understanding, helping learners articulate their ideas and thinking processes, stimulating curiosity, and helping learners to question.	
				8.5 Engages all learners in developing higher order thinking skills and meta-cognitive processes.	

Domain 4				Professional Responsibility	Comments
DNM	DP	PR	E	Standard 9:	
1	2	3	4	Professional Learning & Ethical Practice	
				9.1 Engages in ongoing learning opportunities to develop and apply knowledge and skills.	
				9.2 Uses multiple sources of evidence (e.g., student growth data, self-reflection tools, classroom observations) to self-assess professional practice.	
				9.3 Demonstrates knowledge of legal and ethical rights and responsibilities.	
DNM	DP	PR	E	Standard 10:	
1	2	3	4	Leadership and Collaboration	
				10.1 Takes an active role on the instructional team.	
				10.2 Works collaboratively with students and families to support and learner development and achievement.	
				10.3 Models effective practice and demonstrates shared leadership (either formally or informally) in support of school and program goals.

Sheridan School District Quality Instruction Performance Summary

Teacher: _____ Date: _____

The Oregon Matrix for Summative Evaluations

In the Oregon Matrix, Professional Practice (PP) and Professional Responsibilities (PR) intersects with Student Learning and Growth (SLG) culminating in a summative performance level which leads to a Professional Growth Plan for the educator. When there is a discrepancy between the PP/PR level and SLG level, further inquiry is triggered to explore and understand the reasons for the discrepancy.

Y-AXIS: Combined Rating on Professional Practice and Professional Responsibilities (PP/PR) Domains I - IV	Exceeds Standard	Proficient Relative to Standard	Proficient Relative to Standard or Exceed Standard	Exceeds Standard	Exceeds Standard
	Proficient Relative to Standard	Developing Proficiency Toward Standard or Proficient Relative to Standard	Proficient Relative to Standard	Proficient Relative to Standard	Proficient Relative to Standard
	Developing Proficiency Toward Standard	Developing Proficiency Toward Standard	Developing Proficiency Toward Standard	Developing Proficiency Toward Standard	Developing Proficiency Toward Standard or Proficient Relative to Standard
	Does Not Meet Standard	Does Not Meet Standard	Does Not Meet Standard	Does Not Meet Standard or Developing Proficiency Toward Standard	Developing Proficiency Toward Standard
	Does Not Meet Standard	Does Not Meet Standard	Developing Proficiency Toward Standard	Proficient Relative to Standard	Exceeds Standard
X-AXIS: Rating on Student Learning and Growth Domain V					

Performance Levels	Definitions of Performance as Applied to Standards of Professional Practice
Does Not Meet Standard	Does not meet standards; performs below the expectations for good performance under this standard; requires direct intervention and support to improve practice
Developing Proficiency Toward Standard	Making sufficient progress toward meeting this standard; meets expectations for good performance most of the time and shows continuous improvement; expected improvement through focused professional learning and growth plan
Proficient Relative to Standard	Consistently meets expectations for good performance under this standard; demonstrates effective practices and impact on student learning; continues to improve professional practice through ongoing professional learning
Exceeds Standard	Consistently exceeds expectations for good performance under this standard; demonstrates highly effective practices and impact on student learning; continued expansion of expertise through professional learning and leadership opportunities

Calculating PP/PR Performance Level (Y-Axis)
<ul style="list-style-type: none"> • Add up all component scores for total points possible; • Divide by number of components (based on rubric); • Get a rating between 1 and 4; • Use the following thresholds to determine PP/PR level: <ul style="list-style-type: none"> ○ 3.6 - 4.0 = 4 ○ 2.81-3.59 =3 ○ 1.99 – 2.8 = 2 * ○ < 1.99 = 1 <p>*PP/PR Scoring Rule: If the educator scores two 1's in any PP/PR component and his/her average score falls between 1.99-2.499, the educator's performance level cannot be rated above a 1.</p>

DRAFT

Student Learning Goal (SLG) Scoring Rubric

The SLG scoring rubric is used for scoring individual SLG goals based on evidence submitted by the teacher and supervisor/evaluator. This rubric applies to both teacher and administrator evaluations.

Exceeds Standard	This category applies when approximately 90% of students met their target(s) and approximately 25% of students exceeded their target(s). This category should only be selected when a substantial number of students surpassed the overall level of attainment established by the target(s). Goals are very rigorous yet attainable, and differentiated (as appropriate) for all students.
Proficient Relative to Standard	This category applies when approximately 90% of students met their target(s). Results within a few points, a few percentage points, or a few students on either side of the target(s) should be considered “met”. The bar for this category should be high and it should only be selected when it is clear that all or almost all students met the overall level of attainment established by the target(s). Goals are rigorous yet attainable and differentiated (as appropriate) for all students.
Developing Proficiency Toward Standard	This category applies when 70-89% of students met their target(s), but those that missed the target missed by more than a few points, a few percentage points or a few students. Goals are attainable but might not be rigorous or differentiated (as appropriate) for all students.
Does Not Meet Standard	This category applies when less than 70% of students meet their target(s). If a substantial proportion of students did not meet their target(s), the SLG was not met. Goals are attainable, but not rigorous. This category also applies when results are missing or incomplete.

Calculating SLG Performance Level: X-Axis

- The SLG performance level is based on two SLG goals; educators on a two-year cycle will select two of their four goals
- Score SLG goals using the SLG Scoring Rubric;
- Get a rating between 1 and 4;
- Use the thresholds below to determine SLG level:

Level 4	Level 3	Level 2	Level 1
You must score: <ul style="list-style-type: none"> • 4 on both goals 	You could score: <ul style="list-style-type: none"> • 3 on both goals, or • 3 on one goal & 4 on one goal, or • 4 on one goal & 2 on one goal 	You could score: <ul style="list-style-type: none"> • 2 on both goals, or • 2 on one goal & 3 on one goal, or • 3 on one goal & 1 on one goal, or • 4 on one goal & 1 on one goal 	You could score: <ul style="list-style-type: none"> • 1 on both goals, or • 1 on one goal & 2 on one goal

Determining Type of Professional Development

After the educator performance level has been determined on the matrix using the professional practices and professional responsibilities performance level along with the SLG performance level, use this table to determine the type of professional development the teacher will receive the following year.

Educator Performance Level	Type of Professional Development
Does Not Meet Standard	<ul style="list-style-type: none"> • Directed - The evaluator directs the educator's Professional Growth Plan /professional goal(s). This plan should involve a focus on the most important area(s) to improve educator performance.
Developing Proficiency Toward Standard	<ul style="list-style-type: none"> • Consulting - The evaluator consults with the educator and uses the information gathered to inform the educator's Professional Growth Plan /professional goal(s). This plan is more evaluator directed but does take into consideration the voice of the educator in developing the plan/professional goal(s).
Proficient Relative to Standard	<ul style="list-style-type: none"> • Collegial - The educator and evaluator collaboratively develop the educator's Professional Growth Plan/professional goal(s). The educator and evaluator have an equal voice in developing the plan /professional goal(s).
Exceeds Standard	<ul style="list-style-type: none"> • Facilitative - The educator leads the conversation and chooses the focus of the Professional Growth Plan and professional goal(s) as the educator and evaluator collaborate on the plan/professional growth goal(s).

**DOMAIN I: THE LEARNER & LEARNING
STANDARD 3: LEARNING ENVIRONMENTS**

STANDARD 3: OVERALL

The teacher works with others to create environments that support individual and collaborative learning, and that encourage positive social interaction, active engagement in learning, and self motivation.

<u>DNM</u>	<u>DP</u>	<u>PR</u>	<u>E</u>
------------	-----------	-----------	----------

	Does Not Meet Standard (DNM)	Developing Proficiency Toward Standard (DP)	Proficient Relative to Standard (PR)	Exceed Standard (E)
3.1 Organizes, allocates, and manages the resources of time, space, and attention to actively and equitably engage learners.	Ineffectively designs and manages the learning environment and/or instructional time, resulting in students failing to engage in learning.	While not always effective, designs and manages the learning environment and/or instructional time to accommodate students' needs and involvement in learning.	Designs and manages the learning environment and instructional time to accommodate all students' needs and involvement in learning.	Proactively establishes systems in which both teacher and students manage the learning environment, transitions and instructional time to maximize active involvement in learning for all students.
3.2 Communicates with students in ways that respect unique backgrounds and support a positive classroom climate.	Does not build a classroom community based upon shared values and expectations. At times fails to communicate with students in a fair and respectful manner.	While not always effective, attempts to build a classroom community based on shared values and expectations. Communicates with students in a fair and respectful manner.	Creates a positive classroom community based on shared values and expectations for respectful interactions with regard to race, culture, gender, sexual orientation, religion, socioeconomic status, and exceptionalities.	Collaborates with students to facilitate their self-reflection and ownership for ongoing improvement of the classroom community based upon respect, fairness and the inherent value of all members.

GUIDING QUESTIONS	EVIDENCE EXAMPLES
<ul style="list-style-type: none"> • In what ways is the environment organized to engage students in learning? • Is a behavior system in place which promote a climate of respect and learning? • Are respect, safety, and value for differing perspectives and cultural backgrounds communicated through language, behavior, and the classroom environment? • Is a sense of classroom and school-wide community built, promoted, and facilitated throughout the academic year? 	<ul style="list-style-type: none"> • Expectations that are developed collaboratively, posted, and referred to as needed • Groupings of students which are utilized for content discussions and teamwork • Classroom organization, equipment, and materials are easily accessible and complement the instructional focus • Documentation of modifications in the classrooms environment to improve student success (e.g., visual schedules, cues for strategies/behavior) • Capturing Kids Hearts • Collaborative Problem Solving

4.3 Engages students in learning experiences in the discipline(s) s/he teaches that encourage learners to understand, question and analyze ideas from diverse perspectives so that they master the content.	Does not apply strategies designed to engage students in understanding, questioning and analyzing ideas from diverse perspectives within the discipline.	While not always effective, attempts to apply strategies designed to engage students in understanding, questioning and analyzing ideas from diverse perspectives within the discipline.	Applies strategies designed to engage students in understanding, questioning and analyzing ideas from diverse perspectives within the discipline.	Creates an interactive environment where students take the initiative to independently understand, question and analyze ideas from diverse perspectives within the discipline.

GUIDING QUESTIONS	EVIDENCE EXAMPLES
<ul style="list-style-type: none"> • Are opportunities created to develop academic language as a part of the content instruction? • Is instruction connected to state content standards? • Are multiple levels of questionings strategies used to engage students? • Do students understand the purpose of lessons and value of the content area being taught? 	<ul style="list-style-type: none"> • Use a varied questioning techniques and levels of questions • Providing diverse perspectives through a variety of resources (e.g., discussion, readings, guests, online sources) • Presentation of content standards is ways which are clear and meaningful • Uses tools of language development to scaffold learning of academic language (ELD, GLAD, SIOP)

Licensed Educator Growth, Evaluation, and Development System

STANDARD 4: CONTENT KNOWLEDGE

The teacher understands the central concepts, tools of inquiry, and structures of the discipline(s) he or she teaches and creates learning experiences that make the discipline accessible and meaningful for learners to assure mastery of the content.

MUSIC GUIDING QUESTIONS AND EVIDENCE EXAMPLES

GUIDING QUESTIONS	EVIDENCE
<ul style="list-style-type: none"> • Are opportunities created to develop academic language as a part of the content instruction? • Is instruction connected to state content standards? • Are multiple levels of questionings strategies used to engage students? • Are students actively participating in rehearsals and/or music classes? • Do students' experiences integrate culturally relevant content and build on learners' background knowledge? • Do learning experiences integrate culturally relevant content and build on learners' background knowledge? • Are students engaged in the performance of music? • Are students encouraged to demonstrate a mature level of musical expression? 	<ul style="list-style-type: none"> • Practice logs, music theory worksheets, curriculum-based writing work samples, note tests, performance tests, rhythm worksheets • A variety of music from different cultures. • Use of varied questioning techniques and levels of questions. • Presentation of content standards in ways which are clear and meaningful. • Pursues professional development activities and opportunities specific to content area.

SPECIAL EDUCATION GUIDING QUESTIONS AND EVIDENCE EXAMPLES

GUIDING QUESTIONS	EVIDENCE
<ul style="list-style-type: none"> • Are opportunities created to develop academic language as a part of the content instruction? • Is instruction related to students' IEP. • Are IEP goals related to state content standards at the student's developmental/instructional level? • Are multiple levels of questioning strategies used to engage students? • Is the purpose of the lesson clear? 	<ul style="list-style-type: none"> • Use a varied questioning techniques and levels of questions • Presentation of content standards occurs at the students' instructional level(s) and in ways that are clear and meaningful. • Use of a variety of communication supports (e.g., augmentative communication, visual system) to assist students in building social and academic language. • IEP paperwork completed and compliant with Federal, state, and district timelines. • IEP paperwork contains all necessary components (e.g., eligibility attachments, IEP progress).

PHYSICAL EDUCATION GUIDING QUESTIONS AND EVIDENCE EXAMPLES

GUIDING QUESTIONS	EVIDENCE
<ul style="list-style-type: none"> • Are opportunities created to develop content language as a part of instruction? • Is there a clear reason and purpose for activities? 	<ul style="list-style-type: none"> • Posted learning targets and standards for activities. • Posted components of critical elements. • Photos and/or video of student participation in activities.

Licensed Educator Growth, Evaluation, and Development System

DOMAIN 2: CONTENT

STANDARD 5: OVERALL

STANDARD 5: APPLICATION OF CONTENT

The teacher understands how to connect concepts and use differing perspectives to engage learners in critical thinking, creativity, and collaborative problem solving related to authentic local and global issues.

<u>DNM</u>	<u>DP</u>	<u>PR</u>	<u>E</u>
------------	-----------	-----------	----------

	Does Not Meet Standard (DNM)	Developing Proficiency Toward Standard (DP)	Proficient Relative to Standard (PR)	Exceed Standard (E)
5.1 Engages learners in applying content knowledge to encourage interdisciplinary connections to real world issues.	Does not design learning experiences where students apply content knowledge to real world issues in order to develop interdisciplinary connections.	While not always effective, attempts to design learning experiences where students apply content knowledge to real world issues in order to develop interdisciplinary connections.	Designs learning experiences where students apply content knowledge to real world issues in order to develop interdisciplinary connections.	Embeds interdisciplinary connections within curriculum, allowing students to independently relate these connections to key concepts and underlying themes.
5.2 Engages learners in critical and creative thinking, encouraging new ideas and approaches.	Does not encourage students' formation of independent ideas and creative approaches.	Applies strategies that may allow students to form independent ideas and creative approaches that are sometimes connected to relevant content.	Applies strategies that facilitate students' formation of independent ideas and creative approaches that are connected to relevant content.	Creates an environment that regularly encourages students' formation of independent ideas and creative approaches.

GUIDING QUESTIONS	EVIDENCE EXAMPLES
<ul style="list-style-type: none"> • How is content made “real” to students as they reach the level of application? • Are students’ literacy skills supported by instruction which allows them to access and demonstrate understanding of the content area? • What methods are used to bring students to a level of understanding of the content which allows them to think critically and creatively? • Are activities used to allow students to demonstrate the ability to apply content? 	<ul style="list-style-type: none"> • Use of multiple activity formats which allow students to communicate critically and creatively in the content area (e.g., speeches, debates, written work) • Application of the Comprehensive Literacy Model and associated strategies to encourage literacy development across curriculum and ensure access to content • Inquiry methods which are purposefully chosen to connect with real-world content application and involve other disciplines

Licensed Educator Growth, Evaluation, and Development System

STANDARD 5: APPLICATION OF CONTENT

The teacher understands how to connect concepts and use differing perspectives to engage learners in critical thinking, creativity, and collaborative problem solving related to authentic local and global issues.

MUSIC GUIDING QUESTIONS AND EVIDENCE EXAMPLES

GUIDING QUESTIONS	EVIDENCE
<ul style="list-style-type: none"> • Are students applying their content knowledge in performance? • Do students' music literacy skills allow them to access and demonstrate understanding of the content area? • Do methods used bring students to a level of understanding which allows them to think critically and creatively? • Are activities used that allow students to demonstrate the ability to apply content? • Do students use music literacy skills to access and demonstrate knowledge of the content area? 	<ul style="list-style-type: none"> • Conducts interesting and well-aced classes using a variety of instrumental and/or vocal techniques. • Use of multiple activity formats which allow students to communicate critically and creatively in the content area (e.g. solos, ensemble, sight reading, rehearsal, performance, composition, improvisation, analysis). • Application of the Comprehensive Literacy Model and appropriate strategies to encourage literacy development across curriculum and ensure access to content. • Inquiry methods which are purposefully chosen to connect with content application and involve other disciplines.

SPECIAL EDUCATION GUIDING QUESTIONS AND EVIDENCE EXAMPLES

GUIDING QUESTIONS	EVIDENCE
<ul style="list-style-type: none"> • How is content made "real" to students as they reach the level of application? • Are students' literacy skills supported by instruction which allows them to access and demonstrate understanding of the content area? • What methods are used to bring students to a level of understanding of the content which allows them to think critically and creatively? • Are activities used to allow students to demonstrate the ability to apply content? 	<ul style="list-style-type: none"> • Use of multiple activity formats which allow students to communicate critically and creatively in the content area (e.g., speeches, written work, varied communication systems - visual, augmentative communication) • Application of the Comprehensive Literacy Model and associated strategies to encourage literacy development at the student's instructional level • Activities which are purposefully chosen to connect with real-world content application at the student's instructional level • Modifications and adaptations of materials used in the classroom to help with application of content (e.g., built up spoons, visual schedules, assistive technology, therapy balls)

PHYSICAL EDUCATION GUIDING QUESTIONS AND EVIDENCE EXAMPLES
