RE: Consideration for Approval – Payment of Mississippi School Boards Association Annual Membership Fee

Attached for consideration for approval is an invoice in the amount of \$4,000 from the Mississippi School Boards Association. This invoice represents the annual fee for continued membership by the TPSD in this organization.

As you may be aware the Mississippi School Boards Association provides a variety of services to member districts. Some of these services include:

- Polity review and development
- Annual legislative update sessions
- Training for school board members
- Superintendent searches

It is the recommendation of the Interim Superintendent that payment of this invoice be approved.
