

Board Athletic Department Brief: Week of Sep. 3, 2012

First week of grade checks by coaches is this week.

We are working tirelessly to keep our students grades up and encouraging them to be successful in everything they do putting their best effort forward all the time.

Our first football game was successful for both JV and Varsity. We have things to work on but we are improving each week. This week we have had 3 students wanting to join football and willing to do the makeup conditioning that they missed to be a part of the Family atmosphere of our kids. I have had a great response from the community about what we are doing. We are building strong young men that can make the right decisions in the face of adversity.

Our girl's volleyball continues to win contest with a sweep in their latest contest for Varsity.

As we come across issues in equipment and facilities we are dealing with them in a timely manner. We had to order 2 more helmets to fit kids for football. New uniforms for Girls basketball were ordered.

Thanks for your time and support. Our kids are worth every moment we give them.

James L. Richardson  
Athletic Director
