2. Discussing education and the behavior of the students and how it could apply within the law.
3. Warnings, Citations or Arrests

Activities:

I have continued to stay in contact with the administration of all the schools. I have been working with Minico's Administration and the students and trying to keep them from getting into trouble. I have had the Administration of the School ask for advice about how to handle situations. I have been getting more students that have been stopping and asking me questions. I am really proud of the students when they get into trouble they for the most part respectful and are willing to talk to me. With the threats that have come out towards the schools, I have seen that the School Administration, Teachers and Law Enforcement work well together. We were able to find where most of the threats came from. With the help of the FBI I am still working on one and where it came from.
