Re: Update on 2021 Sinking Fund Projects

I would like to update the Board on the 2021 Sinking Fund projects. This past summer's Sinking Fund projects consisted of replacing the boilers at Cooper, Garfield, Grant, and the Central Office Complex, as well as replacing the roofs at Frost, Hayes, Randolph, and Riley.

Please place this on the agenda of the Special Meeting on Monday, November 15, 2021. Feel free to contact me if you have questions.
