TO: Members, Board of Education
Dr. Carol Kelley, Superintendent of Schools

FROM: Alicia Evans, Assistant Superintendent for Finance & Operations

RE: Partnership Policy

DATE: May 8, 2018

Currently, the District has partnership relationships with several organizations. However, the District does not have formal agreements with all of its partners at this time. It is recommended that a policy be created to formalize partnership agreements. In order to establish the associated procedures and the formal agreements, a committee will be formed to establish the specific language.

After the committee completes its work, the Board of Education will review the parameters outlined in the partnership agreement. These guidelines will define the relationship between the partner organization and the school district. It will also ensure that the partnership activities align with the educational goals of school/district. These agreements must also have a positive impact on students and advance the collective equity efforts of the District.

The Board of Education will periodically review the partnership guidelines that define the District and partnership relationship. Certain partnership agreements will be approved by the Board of Education when necessary.

The administration is recommending no change to the current building usage fee structure during the 2018-2019 school year.
