Meeting: April 6, 2018 – Special Board of Education Meeting

Category: Action Item

Subject: Whale Pass School Greenhouse & Wood-fired Boiler Electrical System  
Installation Project

### **RECOMMENDATION**

It is the administration's recommendation that the School Board approve and authorize the superintendent to award a contract for the Whale Pass School Greenhouse & Wood-fired Boiler Electrical System Installation project to Tongass Electric for a total award amount of \$34,800.

### **PERTINENT FACTS:**

In July 2015, Southeast Island School District was awarded \$832,635 from the Alaska Energy Authority to purchase and install a wood-fired boilers at Naukati, Whale Pass and Hollis Schools, and to 'right-size' the boiler system at Thorne Bay School. The Whale Pass Greenhouse & Wood-fired Boiler Electrical System Installation Project is one part of the project funded through this grant. The proposal submitted by Tongass Electric fulfills the requirements set forth in the request for proposals and their bid meets the budget constraints for this portion of the project.

Tongass Electric has a successful history of past and recent contracts for the District including, among other projects, the Thorne Bay Wood-fired Boiler Electrical System Installation Project (2016) and the Hollis School Wood-Fired Boiler and Greenhouse Electrical Installation Project (2017).
