Subject: New Course – Practicum in Engineering

MISD Board of Trustees: October 21, 2025

Agenda Item – 9A6

Background Information

TEA has chosen to dissolve Practicum in STEM and has developed a new Practicum in Engineering in its place. Technically, this course fits into all Engineering pathways as well as our Biomedical Science pathway.

Attached you will find the TEKs for the new Engineering course and changes. This change will go into effect for the 25-26 school year and is represented in a student's transcript upon completion of the course at the end of the school year.

Fiscal implications

None. Each course is funded in a similar fashion to the old.

Administration Recommendation

MISD administration recommends approval of these courses.
