Re: Elementary May Board Report  
Date: 5/26/2026

- We have had a lot of fun events in May. Thanks to WDIO for coming to check out Trout Lake Day! Fun in the Sun day yesterday was also a great success.
- We held a PreK graduation in Marble last week. We look forward to that awesome group of students coming to Vandyke next year!
- The 4th Grade Graduation celebration is Wednesday. It is a bittersweet moment—saying goodbye to a great group, but also knowing that we have prepared them to spread their wings and fly over at the middle school!
- Planning for next year is underway. We will be adding art to the elementary specials schedule, as well as 5 days a week of PE, which we are extremely excited about. The Reading and Math Corps will also be joining our team.
- One class in each grade level will be piloting a math curriculum for us next year: Amplify.
- I'd like to take a moment to recognize Michelle Marlette, who is retiring from our building this year. Thank you for your years of service to Vandyke and our youngest learners.
