

Title: **Family and Medical Leave**

Code: 5404

Section: 5000 - Personnel

I. State Paid Family and Medical Leave

Paid family and medical leave are benefits administered by the Washington State Employment Security Department (the "ESD"). Employees interested in applying for these benefits must follow the process described in chapter 192-610 WAC. Employees who have questions regarding the application process may contact the ESD or visit its website at paidleave.wa.gov. The district will post notices made available by the ESD that provide pertinent information regarding paid family and medical leave benefits and will comply with applicable provisions of the Paid Family and Medical Leave Act (PFMLA).

II. Federal Family and Medical Leave

The district will grant employees leave in accordance with the Family and Medical Leave Act (FMLA).

FMLA provides eligible employees who qualify the right to take up to twelve weeks of unpaid, job-protected leave in a twelve-month period for certain family and medical reasons. It also gives eligible employees who qualify the right to take up to twenty-six weeks of unpaid, job-protected leave in a twelve-month period to care for a covered servicemember with a serious injury or illness.

The twelve-month period for FMLA leave is measured from the school year.

If both parents of a newborn or newly placed child are employed by the district, they will be limited to a combined total of twelve weeks of leave for the birth of the child, placement of the child for adoption or foster care, or to bond with the child after birth or placement. This limitation doesn't apply if there is a need to care for the child because of a serious health condition.

To be restored to work after taking FMLA leave, an employee who was out because of their own serious health condition must submit a fitness-for-duty certification stating that the employee is fit to resume work.]

III. Pregnancy-Related Disability Leave

An employee with a pregnancy-related disability may take leave during the period of disability. The district may require documentation to verify the need for and length of leave related to the pregnancy-related disability.

An employee who is entitled to take leave because of a pregnancy-related disability may use accumulated sick leave during their period of disability. If an employee exhausts their sick leave before they can return to work, the employee may be granted unpaid leave for

the remainder of their period of disability. During any period of unpaid leave, the employee will be required to pay their portion of the premium related to their health benefits.

Upon return from pregnancy-related disability leave, an employee will be allowed to return to the same job or similar job of at least the same pay, unless there is a business necessity (like a reduction in force) that justifies otherwise.
