FOR ACTION

Subject: Resolution of Gratitude for Intergovernmental Cooperation

On Monday, March 13, the faculty and staff at Westfield Middle School was coming together for the first time following the death of Tiffany Denning. Many staff members were trying to make sense of this loss and were grieving. I asked for help from the Lake Park feeder superintendents, Lake Park High School and NDSEC to supply social workers and others to help support the staff and any students who requested an opportunity to talk with someone about their feelings. The attached resolution identifies those that responded and how grateful as an organization we are that, in our moment of need, these area colleagues came first thing in the morning to help in any way they could.

I recommend to the Board to approve the Resolution of Gratitude for Intergovernmental Cooperation, as presented.

Recommendation: The Board approve the attached Resolution of Gratitude for Intergovernmental Cooperation, as presented.
