

Franklin Elementary

103 Country Club Road Hillsboro, TX 76645

April 2017 Board Report

Curriculum and Campus Updates

The month of April is filled with a variety of activities. Prekindergarten students will learn about plants, insects and spiders. They will discover what plants are and how they grow. Students will compare and contrast spiders and insects. Learners will identify words that do and do not end in the same sound. As you can see, April is a busy month at Franklin Elementary!

Professional Development

This month staff members will utilize the jigsaw method to explore and present STEAM station (science, technology, engineering, art, and math) activities during our professional learning community and faculty meetings. We love to learn from each other at Franklin Elementary. Some showcased activities include designing roller coasters and programming robots.
