**BACKGROUND:**

At the request of the Superintendent, a review/evaluation of the REACH Program was conducted beginning in January of 2016 and culminates with this report. A committee of classroom teachers, parents, and administrators was established to assist in the review process.

The purpose of the review was to provide information and recommendations to the Governing Board and administration regarding programming for gifted students in our schools. The report submitted by the reviewer and the committee contains quantitative and qualitative data analysis, a substantial number of comments from parents, classroom teachers, REACH teachers and students, and a list of recommendations for consideration by the Governing Board and the administration.

Dr. Lopez will present the results of the review, the recommendations, and ideas for a two phase process to address the recommendations during the 2016-2017 school year.
