

Three Rivers School District

Code: KA
Adopted: 10/16/06
Orig. Code: KA

District - Community Relations Goals and Objectives

The Board's goals for achieving positive district-community relations include:

1. Develop public understanding of key aspects of district operations, ascertain public attitudes toward issues in education and identify the public's educational expectations for their children;
2. Secure adequate financial support for the educational program;
3. Promote citizen responsibility for the quality of education provided by their schools;
4. Earn the public's confidence with regard to district staff and services;
5. Foster public understanding of the need for constructive change and solicit public advice on achieving educational goals;
6. Involve citizens in solving educational issues;
7. Promote cooperation between the district and community and share leadership in making the community a better place to live.

Achieving these objectives requires that the Board and staff, individually and collectively, make every effort to express a positive attitude toward the schools in their daily contacts with parents, community members and one another; make systematic, honest and continuing efforts to discover what the public thinks and what citizens want to know; interpret school programs, issues and accomplishments; develop an active partnership with the community in working toward improvement of the educational program; and take an active interest in the needs of the community to find ways to make the community a better place to live.
