SUBJECT: Auto Tech Lab
DATE: October 3, 2007

This is to inform you that after very careful consideration and discussion, I am recommending purchasing the Automotive Technology Lab because it is the only proposal that meets all of our requirements.

The Tech Labs Automotive Program

provides students with Multimedia Computer-Aided Instruction that is competency-based;

provides students with Internet-based content that students may access using any Internet-enabled computer;

provides a computer-based classroom management system that allows for the instructor to automatically track individual student competencies.

We believe very strongly that this system will provide students with a lab environment that will promote a positive instructional climate that will foster student interest in this demanding field.

Re: Contract Security Services

Date: October 03, 2007

In references to the security officers contract services for the 2007-2008 school-year; I'm recommending that Securitas Security Services be the primary agency in providing security services for our district.

The interviewing committee received all aspects and services provided by each company, and by a full consensus of the committee, Securitas Security Services will be the best overall in meeting our district goals.

Thank you,
