

## KAUFMAN ISD - MAINTENANCE REPORT

Best Today, Better Tomorrow!  
December 2023 - January 2024

**KISD Maintenance continues to work throughout the district completing tasks for the upcoming school year!**

**Possibly the largest undertaking over the Winter Break was the completion of room labels. Every campus in the district already had exterior door labels; however, to increase our security, we have added interior door numbers.**

**In case of a major emergency, staff and students will only have to look at the door frame to be able to report what room number they are located in. From a safety and security standpoint, this is an important identifying feature for first responders.**
