Re: Celebrating Success

Celebrating Wildcat Success at Sprague through its new ROAR program!

We are excited to present our Wildcat competencies, which are aligned with the district's Portrait of a Graduate. These competencies--being respectful, open-minded, always safe and responsible--are essential for fostering a positive school culture. To ensure consistent teaching of these values, we have developed a behavioral framework that outlines the expected behaviors for students throughout the school including hallways, the cafeteria, playground, bathrooms, bus and classrooms. We look forward to sharing our progress to date and how this framework will help our students develop crucial skills and enhance their interactions with peers and staff.
