Re: Notes from Activities Committee meeting

1. The activities committee is recommending to the teacher negotiations committee that a speed and strength coach position be negotiated into Schedule C of the Master Agreement. This would be a nine month position, or three different seasons at a cost of \$1,000 per season. The total cost for nine months is estimated to be \$3,000.

The funding for this new position would have to come from alternative sources other than the general fund. If external/alternative funding is not available to fund this new position, the position would go unfilled for the year/s that alternative funding does not exist. It was made clear that the addition of this position in Schedule C was not to add additional costs to the school district.

2. The committee is looking forward to continuing to support Coach Sue Peterson, as she prepares for her second year as the coach of the girls basketball program.
