Description:

MAP Growth, part of the Growth Activation Solution from NWEA, is the most trusted and innovative assessment for measuring achievement and growth in K–12 math, reading, language usage, and science. It provides teachers with accurate, actionable evidence to help inform instructional strategies regardless of how far students are above or below grade level. It also connects to the largest set of instructional content providers, giving educators flexibility in curriculum choices.

Historical Data:

NWEA - MAP Growth has been used for 2 years to norm-reference students and monitor growth in the Beginning of the Year, Middle of the Year, and End of the Year. This year, MAP data will be used to support “student growth measures” for the Teachers’ Incentive Allotment or TIA.
