STUDENT, EMPLOYEE, AND VISITOR HEALTH AND SAFETY

The District shall develop and implement an environmental health and safety program that is positive, proactive, integrates responsibilities within the District, and promotes and incorporates the following:

- A. Procedures describing a hazard identification and abatement program that requires the periodic inspection of District facilities, the implementation of immediate and programmed corrective actions when deemed necessary by such inspections, and the development of a District-wide hazard reporting procedure that enables employee/stakeholder participation. This program should also provide procedures for identifying and responding to hazards that are created by outside entities, inspecting activities of contractors, and inspecting new facilities to determine whether appropriate requirements for environmental health and safety have been met.
- B. Procedures that promote environmental health and safety awareness among employees, students, and stakeholders. These procedures shall include, but not be limited to, the establishment of a program of regular communication with students, employees, and stakeholders about pertinent safety and health issues through available mediums in the District
- C. Procedures directed toward the safety and health of students during transportation to and from school, at school, and during participation in school-related activities. These procedures shall include, but not be limited to, promoting bus safety for students, assessing the safety of school traffic patterns, operating school clinics, administering medication and medical treatment, promoting laboratory and shop safety, promoting safety in sports and other outdoor activities, inspecting playground equipment and promoting safety on playgrounds, and assessing environmental exposure.
- D. Procedures related to District employee health and safety issues that include, but are not limited to, provision of work areas free from recognized hazards and programs that are required by Federal and State law, and defining employer and employee responsibilities and expectations related to health and safety.
- E. Procedures describing an accident reporting and investigation system that provides for identification of root causes, determination of remedial and programmed corrective actions, and communication about accidents to employees and stakeholders.
- F. Procedures for foreseeable emergencies and fire prevention.
- G. Procedures relating to recordkeeping required by State or Federal law.

PHASE-OUT/BANNED PRODUCTS

The District Administrator shall require that any chemicals, insecticides, or other materials that the Federal government is phasing out and/or banning by a certain date be immediately banned from use on Board property.

POLLUTION CONTROL AND PREVENTION

In an effort to comply with the environmental policy and applicable regulations, the District shall develop and implement procedures designed to prevent air and water pollution, minimize or eliminate waste streams where possible, and identify possible sources of air and water pollution as required by State and Federal law.

USE OF FREE-FLOWING MERCURY CONTAINING PRODUCTS

The District shall not purchase or use for any reason free-flowing elemental mercury.

The District shall not purchase or use any products containing mercury as those products are defined by applicable State law, unless no reasonable alternative product is available and the product with the lowest mercury content is used. This rule does not apply to products whose purchase is required by Federal law or products whose only mercury content is in a button cell battery.
