Re: Student Number Increase Application

Dear Board of Directors of Crosslake Community School,

Thank you for the school's application to increase its enrollment cap, submitted to Osprey Wilds (OW) on March 17, 2025. This letter authorizes Crosslake Community School (CCS) to begin serving up to 700 students in Grades PreK-12, effective upon contract revision.

Expansions are evaluated and ultimately granted based on a charter school's demonstrated ability to fulfill the primary purpose of charter schools as described in MN Stat. §124E.01: "The primary purpose of charter schools is to improve the learning, achievement, and success of all students." OW understands that determining student success depends on many factors. This expansion is granted on CCS's history of academic, financial, governance, and operations performance as demonstrated in the student number increase application and the school's most recent academic performance evaluation. OW also expects that CCS will not exceed its enrollment maximum without prior authorization from OW.

If CCS's board of directors agrees to the above terms, OW will work with CCS to execute a contract revision to allow the school to serve up to 700 students, effective upon contract revision.

Sincerely,

Erin E. Anderson
Director of Charter School Authorizing

cc: Jenna Leadbetter, CCS Executive Director
Addie Mazza, OW Authorizing Specialist
