

The holiday cheer has certainly been felt within the halls of Denfeld! Students have been showing their support for the community with several fundraisers over the past month such as coin wars; a grade VS grade fundraiser put on by Key Club where all the proceeds go to a Denfeld family in need to help with Christmas expenses, cats vs dogs; a fundraiser put on by NHS where students can bring in new cat or dog food, collars, and other supplies, or plain cash donations, all of which will be donated to Animal Allies over break, and a WIN gift drive; each WIN was provided with a list of things a local branch of The Salvation Army is in need of and which ever WIN donates the most items from their list will earn a party when they get back from break! This week we kicked off our "Ho Ho Holiday week" with dress up themes and activities after school happening all week! On Monday we had our annual Holiday Concert featuring the Denfeld bands, choirs, and orchestra where each group played holiday themed pieces! As guests walked into our historic panel lobby they were greeted by the old clock tower spire! The spire, originally constructed in 1926 was almost thrown away when the clock tower repairs were happening but it was ultimately saved by one of the building engineers! Now the spire sits proudly in the corner of the historic panel lobby to remind students and staff how much history our beautiful building really holds. Today we performed a shortened version of the concert for local elementary and middle school students, there were over 500 kids in attendance! Tomorrow we will be doing the same thing for our very own staff and students at our holiday assembly. That is all for Denfeld at this time.
