

Tabiona High School

Box 470

Tabiona, Utah 84072-0470

June 3, 2022

The mission of Tabiona School states “we can accomplish our goals and beliefs through an active partnership of the Home, School and Community.” This past year we have had some allegations brought about our school that have really made us think about our situation and where we are heading in the future of education. One of the belief statements attached to the mission statement says “1. All people have worth and deserve to be treated with respect. & 2. All students need to be included and have a mentor they can trust and go to for strength.” These two beliefs that are written in our mission are true and need to be addressed in our school and community. These two beliefs also address the social and emotional growth of those within our school.

We are going to add a goal for our school this year through an amendment to our school improvement plan. The goal will read, “Tabiona School will acquire understanding and demonstrate acceptance of all students no matter the race, gender, sexual orientation, etc. All students will learn empathy for others, establish and maintain positive relationships, and make responsible decisions in the way we treat others.

Our plan to reach this goal for our students include the following strategies:

#1. We will bring host assemblies dealing with cultural awareness and teach the students about the worth of all individuals and their contributions to this great nation. African-Americans, Tribal, Hispanics, etc.

#2. We will continue our wellness center continue train teachers in the well being of our students. We will Buy each Teacher the book entitled Heart and do a book study with the staff and understand why and how we can help each student.

#3. We will pay Mr. Wagner \$1500 to act as the assistant principal when Mr. Jenkins is out of the building. He will also be asked to help at home sporting events and help the filming of our games.

Budget
Allocation - \$8500
