

Executive Director Board Report

December 23, 2025

- Our students are anticipating Winter Break, and we wish all of our families a safe, healthy, and restorative time away from school. We look forward to welcoming students back on January 5, 2026.
- Due to the unexpected resignation of the SUN Coordinator, we have an opportunity to realign our leadership structure to leverage internal talent better. This realignment is designed to strengthen consistency across programs, enhance safety, and provide a more unified and stable approach to supporting students and staff. We plan to have this model in place as we enter the second semester and anticipate it will serve as an ongoing framework moving forward.
- Looking ahead, the first semester concludes on January 15, 2026. We are excited to celebrate our students' remarkable achievements and progress at the end of the first semester!
