Re: *Recommendation to Award RFP #112-25 for Student Data Management System IEP FIE LPAC Section 504*

RECOMMENDED SUPPLIER: SameGoal, Inc.

BACKGROUND INFORMATION:

Coppell ISD issued a Request for Proposal (RFP) for a student data management system that encompasses IEP, FIE, LPAC, and Section 504 requirements. After reviewing seven proposals, the selection committee has recommended SameGoal, Inc. as the preferred supplier for this new student data management solution, which will replace Frontline Technology Group LLC, doing business as Frontline Education.

PURPOSE:

The Student Data Management System is designed to support learners' educational plans through the following modules:

- Full Individualized Evaluation (FIE) Writer
- Individualized Education Plan (IEP)
- Language Proficiency Assessment Committee (LPAC)
- Section 504

Upcoming Transition:

For the 2025-2026 school year, the district will begin transitioning from Frontline Education to SameGoal, Inc. (modified total) as we convert and transfer data between the two systems. This phase will also include professional development for staff to ensure a smooth preparation for full implementation in the 2026-2027 school year.

ANNUAL COST: \$62,344.02

FUNDING SOURCE: General Funds
