

Panorama is thrilled to share that we have been approved as an alternative vendor for the 5 Essentials Survey in Illinois!

When an Illinois district opts to use Panorama as an alternative vendor of the 5 Essentials Survey, there are several key considerations that need to be made to ensure they are compliant with the state.

Guidance for Districts

Survey Content

- Districts must use at least one survey topic from **at least two of the 5 Essential components**
- Districts must launch surveys for **students, staff, AND family members**
- Dig deeper into **which Panorama topics are approved for each component with your Account Manager**

Survey Rosters

- ISBE has provided Panorama with the **approved staff and student rosters**
- **Panorama will coordinate with each district** to ensure the proper rosters are used
- **Family surveys do not require a roster**—a general survey link will be available for distribution to parents

Survey Administration

- Surveys must be administered **during state mandated 5 Essentials window**
- **Students** will log in to the survey using their usual **Student ID**
- **Staff** will receive an **email with their unique survey link**
- **Family members** will access the survey via a **general survey link**

Reporting Results

- Each district will have access to results in **Panorama's reporting platform** within 2 days of the window closing
- During the survey window, districts can **track response rates in Panorama**
- **Response rate data** from the surveys must be submitted to the state.
- **Panorama will submit this data** on behalf of each district

Panorama is here to help!

Don't hesitate to reach out to your Panorama team or support@panoramaed.com with questions or concerns.
