Two of our teachers have been offering some enrichment activities at our school during our computer lab hours. Our first activity was an Art Day in which students had the opportunity to create an art project to take home. Our second activity day was Read Across America Day. Student participated by bringing a book of their choice to read and creating and binding a new book out of up cycled materials. Both of the events were well attended. Our upcoming events include a celebration of Earth Day and a day of community service.

From March 19-31, some students and teachers will be taking an educational tour to Greece. Both students and adults are very excited about the trip and expect it to be a great learning opportunity. Photos from the trip will be posted on the Sheridan AllPrep web page in April.

Respectfully Submitted,

Jesse Eisenschmidt, Principal
