Discussion/Action

Background Information:

The purpose of this agenda item is to provide the Board of Trustees with an updated demographic report outlining current and projected student enrollment trends across Jarrell ISD. As the district continues to experience sustained residential growth, ongoing demographic analysis is essential for informed, data-driven decision-making.

Item Addressed:

This report includes updated enrollment forecasts, housing development patterns, community growth indicators, and long-range projections prepared by our demographic consultants. Reviewing this information supports the Board's work in several key areas, including long-range facilities planning, staffing and personnel considerations, instructional resource allocation, transportation routing, and fiscal forecasting.

Presenting the updated demographic report at this time ensures the Board has current data to evaluate future facility needs, assess capacity across existing campuses, and plan proactively for continued population growth. This information also reinforces transparent communication with our community regarding how demographic trends impact district operations.

Recommended Action:

No action is required at this time.
