Re: Center Cass School District 66
Lakeview Junior High and Prairieview ES - Parking Lot Replacement
Commission No. 9999

Dear Andrew:

On Tuesday, November 25, 2025 we received proposals for soil borings and environmental site assessment, as well as hourly/testing rate schedules for future construction testing of this project as follows:

Testing Service Corporation (TSC)	\$15,350
ECS Midwest, LLC	\$13,700

Based on the above referenced quotes and attached testing rate schedules, we feel it is in your best interest to contract with ECS Midwest, LLC. Our selection is based on the testing company with the lowest proposal and most competitive rates for testing, since that future portion of their work will make up the bulk of their contract. Budgets were provided based on an initial understanding of testing scope but do not necessarily indicate impacts of phased construction.

Please issue a purchase order to ECS Midwest, LLC in the amount of \$13,700 at your earliest convenience. This will put the testing company on board to work with the design team during the development of construction drawings.

We have attached copies of all proposals for your files. Please return two signed copies of ECS Midwest's proposal to my attention.

Sincerely,

Wold Architects and Engineers
