

Lincoln Elementary School

Building Independent Thinkers and Problem Solvers, One Student At A Time!

December 2020

Report to the Board of Education

Lincoln Elementary School

Kelly Millburg, Principal

December 2019

December 2020

3rd Grade	72	3rd Grade	78
4th Grade	104	4th Grade	74
5th Grade	78	5th Grade	103
Total	254	Total	255

- We were able to host a Virtual Family Connection Night during National Family Reading Night on 11/18/20 by creating a flipgrid representing all our teachers' favorite book recommendations. <https://flipgrid.com/cc8edc6b>
- Lincoln school held picture retakes on 12/1/20 for absent students, returning remote students and those who were not happy with the previous session.
- Lincoln students were still able to make cards and ornament gifts for the nursing homes. This year they were delivered to the front door ensuring all Covid safety requirements as a precautionary measure.

- It was discussed that the Festival of Arts will be held virtually this year. The options for making this happen are still being discussed.

- A late ESP appreciation table was presented on 12/9/2020 to honor our support staff. We had a grab and go coffee and muffin/donut table set up in the main hallway and gift bags were given as tokens of appreciation.

- The Life, Health and Safety crew from the ROE came on December 14th to inspect and provide feedback for Lincoln School.
- December 18, 2020 is the End of the 2nd Quarter. Every effort to conduct safe holiday enrichment activities have been planned to keep students engaged in learning. Report Cards will go out in January after we return from break.
- Winter Map testing was completed during the week of 12/7/20 providing feedback to help drive instruction as we head into the 3rd quarter.
- Makerspace update:
 - A virtual meeting was held to confirm items for purchase.
 - Items discussed for purchase were requisitioned and ordered.
 - Discussion for improving the physical space has been discussed.
 - The next meeting will be held in January after materials begin to arrive.

- Students were challenged to digitally create pictures around circles and write a paragraph.

- Mrs. King's class completed a STEM project creating balloons/floats and paraded in front of the office. They then completed a Macy's Day Parade video with GreenScreen as a background.
