

Erikson Institute

# The *Early Development Instrument*

# What is the EDI?

- Population measure
  - Community Needs Assessment
  - Precise Data
- Checklist of 103 questions- Presented as Maps/Tables
  - Measures five developmental domains - holistic
  - Completed by Kindergarten teachers
  - Typically administered triennially second half of year
  - Kindergarten Census

(Janus & Offord, 1997; Janus, Brinkman & Duku, 2011)

# Developmental Domains

## PHYSICAL HEALTH & WELL-BEING

Assesses children's gross and fine motor skills, physical independence and readiness for the school day. E.g. *Can the child hold a pencil? Is the child able to manipulate objects? Is the child on time for school?*

## SOCIAL COMPETENCE

Assesses children's overall social competencies, capacity for respect and responsibility, approaches to learning, and readiness to explore new things. E.g. *Is the child able to follow class routines? Is the child self-confident? Is the child eager to read a new book?*

## EMOTIONAL MATURITY

Assesses children's prosocial and helping behaviours, as well as hyperactivity and inattention, and aggressive, anxious and fearful behaviours. E.g. *Does the child comfort a child who is crying or upset? Does the child help clean up a mess?*

## LANGUAGE & COGNITIVE DEVELOPMENT

Assesses children's basic and advanced literacy skills, numeracy skills, interest in math and reading, and memory. E.g. *Is the child interested in reading and writing? Can the child count and recognize numbers? Is the child able to read simple sentences?*

## COMMUNICATION SKILLS & GENERAL KNOWLEDGE

Assesses children's English language skills and general knowledge. E.g. *Can the child tell a story? Can the child communicate with adults and children? Can the child take part in imaginative play?*

## The EDI Does Not:

- Report on individual children
- Identify specific learning disabilities
- Recommend special education or being held back
- Recommend teaching approaches/inform instruction
- Reflect performance of school or quality of teaching

(Janus & Offord, 1997)

# Purpose of the EDI

EDI results are used to:

- Look **back** and assess how the community can better support early childhood development and prepare children for school; and
- Look **forward** to inform how to address the needs of the incoming class of kindergarten students as they progress through school.

(Source: HELP)

# Goals

The EDI empowers communities to develop solutions that address children in the context of their neighborhoods.

Long Range Goals include:

1. Identify needs/strengths
2. Promote equitable distribution and alignment of resources
3. Foster better coordination across systems.

(Guhn, Janus & Hertzman, 2007; Janus & Offord, 1997)

# Population vs. Individual Monitoring

Image: HELP

**How is my child  
doing?**

## **INDIVIDUAL MONITORING**

**How are our  
children doing?**

## **POPULATION MONITORING**

# Erikson and the EDI

# Phase I & II Partner Communities

- ★ Greater East St. Louis Early Learning Partnership (N=428)
- ★ Success by 6 Coalition of Kankakee County (N=691)
  - Bourbonnais (Village)
  - Bradley (Village)
  - Kankakee (City)
- ★ Austin Coming Together
- ★ Collaboration for Early Childhood of Oak Park
