To Whom It May Concern,

This letter is to confirm that MusicFirst is the sole source provider of the subscription-based MusicFirst Classroom designed specifically for music education along with the integrated content, modules and software in North America. No other vendor offers the MusicFirst Classroom with its integrated tools in a single package, and no other vendor can provide any of the software tools inside a MusicFirst Classroom implementation. The MusicFirst Classroom is a sole source product, created, sold and distributed exclusively by MusicFirst.

We have two patent-pending features of the MusicFirst Classroom (our assessment generator and the content sharing feature). When building an assessment, teachers can choose from nine (9) different types of questions, including the ability to include work from any of the integrated software. Our content sharing includes the ability to "Add To Class" from the shared content menu. No other LMS offers these features and functionality.

If you desire additional information, please feel free to contact me at (515) 446-8742, or by email (mike@musicfirst.com).

Sincerely,

A handwritten signature in black ink, appearing to read "Mike Olander", with a long horizontal flourish extending to the right.

Mike Olander
Education Manager
