BOARD AGENDA ITEM

Item: MySchool@Kent Course Offerings (Apex,	Information/Discussion Future Action Action	
Edmentum, & eDynamic)		
Submitted by: Tiffany Duncil	Date:	7/01/2025
Recommend by: Sue Gardner 56.	Board Meeting Date:	7/21/2025
2.000		

RECOMMENDATION: It is recommended that the board approve the MySchool@Kent course offerings through our content providers, Apex, Edmentum and eDynamic Learning.

BACKGROUND: The attached lists include courses offered by Apex and eDynamic Leaming, which we seek to be approved by the board as course offerings for the 2025-2026 school year to students in the MySchool@Kent middle and high school programs. Courses crossed off will not be offered. Courses will be instructed by appropriately certified and endorsed MySchool@Kent staff or externally contracted instructors, as needed. These attached lists allow us to provide a wide array of course offerings, in congruence with our staffs' various teaching credentials. Whereas Apex provides the bulk of our core and other subject courses, Edmentum and eDynamic Learning provides us a great array of elective courses to offer our students, as well.

Struggling with securing student internships or meeting career readiness standards?

Our **Virtual Internship Program** offers flexibility with a variety of career options for students to choose from. This year-long program prepares students before stepping into a physical workspace and allows them to test and try concepts in a risk-free simulated environment. Students will gain valuable skills and uncover which areas they like most and where they'd like to focus in the future, or major in at college.

Vith eight different options to choose from, students will have the flexibility to select the career path that's right for them.

✓ A perfect year-long program that pairs nicely with many CTE pathways

Gives students an outlet to reflect on their future and hone in on areas in their desired field

 Provides teachers with comprehensive lessons, activities, tools, and resources to help their students succeed. Meets career readiness, preparation, and workplace essential standards, ensuring that your students are fully equipped for success.

Enrich Your Business Curriculum with Simulations

Knowledge Matters is the leader in virtual experiential learning, providing simulations for High Schools. Paired with eDynamic Learning's courses, you will have the tools you need to enhance student engagement and elevate the learning experience.

A comprehensive set of teaching materials and the ability for your students to apply what they have learned

Vine different simulation curriculum packages can be seamlessly integrated into your existing curriculum and lesson plans

Simulations offer a risk-free environment for them to test and try out concepts while gaining valuable skills and learning all aspects of their chosen industry

Prepare students for internships and success after graduation

V Browser-based, online simulations that provide you with an interactive curriculum to teach business, marketing, financial literacy/personal finance, and much more

O CTE and Career Library

eDynamic Learning is North America's largest publisher of Career and Technical Education (CTE) and elective courses. With nearly 270 courses tailored for middle and high schools, our **CTE and Career Library** offers digital courseware meticulously designed to bolster your CTE Plan or Programs of Study (POS). Our courses, organized under the National Career Clusters® categories, serve as versatile tools, whether as a textbook replacement or a valuable supplement to your classroom curriculum. Explore the possibilities with eDynamic Learning!

Struggling with securing student internships or meeting career readiness standards?

Our Virtual Internship Program offers flexibility with a variety of career options for students to choose from. This year-long program prepares students before stepping into a physical workspace and allows them to test and try concepts in a risk-free simulated environment. Students will gain valuable skills and uncover which areas they like most and where they'd like to focus in the future, or major in at college.

Vith eight different options to choose from, students will have the flexibility to select the career path that's right for them.

Meets career readiness. preparation, and workplace essential standards, ensuring many CTE pathways that your students are fully equipped for success.

A perfect year-long

Gives students an outlet program that pairs nicely with to reflect on their future and hone in on areas in their desired field

Provides teachers with comprehensive lessons. activities, tools, and resources to help their students succeed.

Enrich Your Business Curriculum with Simulations

Knowledge Matters is the leader in virtual experiential learning, providing simulations for High Schools. Paired with eDynamic Learning's courses, you will have the tools you need to enhance student engagement and elevate the learning experience.

✓ A comprehensive set of teaching materials and the ability for your students to apply what they have learned your existing curriculum and

✓ Nine different simulation curriculum packages can be seamlessly integrated into lesson plans

✓ Simulations offer a riskfree environment for them to test and try out concepts while gaining valuable skills and learning all aspects of their chosen industry

✓ Prepare students for internships and success after graduation

✓ Browser-based, online simulations that provide you with an interactive curriculum to teach business, marketing, financial literacy/personal finance, and much more

O Middle School Library

eDynamic Learning is the largest publisher of Career and Technical Education (CTE) and elective courses in North America offering over 270 courses for middle and high schools.

The **Middle School Library** offers middle schools unique elective and career courses for students to explore a variety of professions and receive the knowledge and preparation needed to make life-shaping decisions prior to high school. Digital courses can serve as a textbook replacement or to supplement the classroom curriculum.

Middle School Enrichment

Dive into **Learning Blade's** immersive missions, perfect for supplementing existing instruction or creating new summer initiatives such as Coding camps or STEM camps. Learning Blade offers middle schools online interactive supplemental lessons and activities that are proven to increase career interests in a variety of high-demand areas. Unleash the potential of your middle schoolers with: Engaging, online lessons proven to ignite interest in high-demand fields like computer science, STEM, and health sciences.

 \checkmark Ready-to-use lesson plans that complement existing academic instruction.

Lessons are aligned with state standards, covering math, science, social studies, and language arts.

Constantly adapting and expanding our STEM curriculum which allows educators to integrate STEM awareness and career readiness into their teaching needs.
