SUBJECT: Personnel and Student Data Report
DATE: November 18, 2010

Background

The Personnel Report is compiled each year to track staff and enrollment data as of September 30th of the current school year. Information on each employee group is presented by full time equivalent (FTE) and then by actual number of staff for each group. The student enrollment and diversity data is based on the numbers reported in the Fall Housing Report that is submitted to ISBE in October of each school year. This information is placed in the Illinois School Report Card issued at the end of the school year.

Attached you will find the Report that will be used as a basis for the presentation. I will touch on all major aspects of the report.
