Mineola High School Tech Club

This description is from one of the members - Jonah Hagan, senior

"Mineola High School has established a new club since we have become an ipad based campus, allowing us to have the one-to-one technology. Tech Club is made up of young adults from all grades. We take time out of our day to help students, as well as teachers, know how to use their technological pieces to the maximum capacity. We have made ourselves known all over campus so that we are accessible and ready to help!"
