

# Teaching and Learning - Board Report

Mark Schommer

August 9, 2024

---

## Positive Talking Points:

- Two sites to check out:
  - [TSD Teaching and Learning](#) - teacher curriculum and resources (staff access only)
  - [Tomahawk Teaching and Learning](#) - completely updated family access to courses and parent resources, along with all the information needed for ESEA.
- Coaching begins this month in K-2 ELA, 6-10 ELA, and 6-9 Math through CESA 9.
- This month's new teacher meeting topic: Roster analysis - we learn how to review the data for the students in our classroom.

## Pillar #1: Teaching, Learning and Relevance

- There are MANY areas of support that we are already working on.
  - HS Math - Working with new resources, the TSD ACT Screener, and supporting our students.
  - HS ELA - Helping with communication between ELA 9, 10, 11, and 12, along with AP Lit and Comp.
  - Curriculum writing support in ELA 6-8.
  - HS Business to support the new teacher
  - MS Math - supporting the new math program
  - Grades 3-5 Social Studies meetings
- We are also working to contract with a CKLA trainer for specific support, including helping teachers gain a deeper understanding of why the program was set up the way it was, which will enable us to make informed future decisions.

## Pillar #2: The Whole Student

- The MLSS system defines how we support our students. Since testing has not yet begun, we are postponing the organization of groups. Instead, we are supporting students who tested in the 20th-28th percentile in the Spring to ensure they did not fall below this level over the summer.
