

Student Safety Update

Enhancing Student Safety

My intention is to progress monitor with the board by bringing the number of accomplished tasks each time. Some tasks will take longer than a year to complete (i.e. structural changes to MNTHS)

- At this time, 1 of 25 recommendations have been fully implemented
 - Provide a new stipend to hall monitors and police officers has been completed

We have also updated the District Improvement Plan with these recommendations. The DIP is posted on our website and will continue to be updated as new recommendations surface.

Updates on Enhancements

- Process for choosing a **Weapon Detection System**
 - Walk through metal detectors have been installed on campuses as of Jan. 22
 - Asking board for authorization to expend funds and enter into a contract with a company to install permanent systems
- Center for Safe Schools had been contracted to do a **safety audit** of the Manor SHS Complex by O'Hanlon
 - Approved by the Texas School Safety Center to conduct school safety audits
 - Scheduling site visits, interviews and surveys to be completed within next 30 days
 - Will likely result in new recommendations for safety enhancement

Updates on Enhancements

- **MNTHS** Safety Enhancements
 - Authorizing the funds and contractor to begin work on the fencing project
 - Implementing changes to school entry starting February 3rd
