Dear Weber School District Awards Committee:

We would like to nominate Natalie Cole, Betty Shellabarager, Shauna Kolb, Angie Bodily, and Ann Jackson (Roy High Office Staff) for the E+ Team Award. These amazing individuals come together and create a strong team who is able to handle any situation that enters the doors of Roy High.

As each school year begins, the main office of Roy High turns into chaos and each team member takes a role in turning the chaos into an organized system. Natalie's strength is calming those who are feeling emotionally flooded and helps them talk through a solution. Betty's strength is educating parents and students about the fee process and what is and what is not expected when a student enters and exits high school. Shauna's strength is greeting all individuals who walk through the door with a smile and friendly approach by answering their questions. Angie's strength is resolving all concerns for parents and students regarding attendance. Ann's strength is tightening up the loose ends that may have slipped through the cracks. This teamwork makes for a steady energetic office where all individuals' needs are recognized and worked through.

Of course, the best part about our office staff is the mere fact they show up each day with a smile on their face and are ready to support everyone. They are the true description of team synergy; each team member fulfills their role and they are always there to help one another with other duties.

Natalie, Betty, Shaune, Angie, and Ann are deserving of the E+ Team Award because they keep the office of Roy High functioning efficiently.

Sincerely,

Roy High Administration
