FROM: Carla Cumblad, Executive Director

RE: Report on the School Improvement Day Activities

On October 7, 2016, the staff who were able attended problem-solving/behavior change sessions in the morning. As a cooperative, it is important for us to feel confident that the staff have a structured method of approaching systematic behavior change with students. It is also important that all staff are knowledgeable about the process and have an opportunity to communicate regarding these plans. This is ongoing work for the cooperative. For those staff members who were unable to attend the full day (due to being in session with students), additional training sessions are scheduled for half days throughout the fall semester.

In the afternoon, most of the staff participated in sessions regarding the smooth implementation of PowerIEP 2.0 and our updated reevaluation procedures.

It was a productive and informative day.
