

## At ORVED

### We Believe

- ❖ Kids belong in school where they can have connections with caring adults.
- ❖ Every student deserves a **personalized** education.
- ❖ Education can be **flexible**.
- ❖ Strong schools make strong communities.
- ❖ Online education can strengthen “brick and mortar” schools.

### We Provide

- ❖ A **public** solution designed by Oregon educators for Oregon schools.
- ❖ Part-time and full-time options.
- ❖ Accessible education: any time, any place, any path.

*“The question isn’t will your students take courses online, but will it be a program that works with and supports public schools or a for-profit company that only cares about the bottom line.”*

~ David Beasley, Superintendent,  
Gaston School District

## Who We Are

Oregon Virtual Education is proud to offer Oregon students, parents, and school districts a new way to approach learning. As an online public charter school, ORVED is part of the growing trend to use online education to give students increased flexibility in schedules while still offering rigorous academic course-work.
