Mr. Ben Mueller, M.Ed
Senior Graduate Marketing
& Recruiting Coordinator
Dominican University
7900 West Division Street
River Forest, IL 60305

Dear Dr. Miller and Mr. Mueller,

Thank you for taking the time to meet with me this week in order to discuss the possibility of collaborating again in offering the Instructional Technology course that meets the needs of District 90 teachers. It was exciting to talk about the way in which this course will continue to dovetail with the important content that our teachers need to learn in order to further integrate technology into their classroom instruction.

Having the chance to work with Dominican University on a cooperative project of this nature has – and will continue to be - a tremendous opportunity. I will be eager to talk more with you in the future about any issues pertaining to the course syllabus, enrollment requirements, tuition fees, and other associated considerations that may still need to be finalized. It is my strong hope that we will continue our past agreement of reducing tuition fees in exchange for District 90 ensuring a minimum enrollment threshold.

I will look forward to continuing our conversation about these issues in the coming weeks. Thank you for your enthusiasm and partnership in this endeavor!

Best regards,

Ed Condon, Ph.D.
Superintendent
