Tuesday- Graduation Day, Teepees were set up, decorations were set up, inflatable headdress and tunnel was set up, Graduation began @11:00 and this graduation was (My own opinion) the best one in recent years. Graduation was done, decorations and teepees were taken down. Manpower workers took their own teepees down, myself and son started taking down the remaining front four teepees, got two down on our own and Blackfeet Fire Management helped with the other two.

Wednesday- Thank you letters were sent to Manpower and Blackfeet Fire Management
