

POLICY 2240

School Lunch Program - General Policy Statement

- A. The Board will sponsor school food services in the schools of the Box Elder County School District. Under the jurisdiction of the board each school will operate a regular program in school food services.
- B. Meals will be served which meet the established minimum nutritional requirements as prescribed by state and federal agencies responsible for said programs. The price of meals will be the minimum made possible through existing federal and state subsidies and using a maximum of USDA donated commodities, and through proper management and menu planning on the part of the school and local district personnel. This minimum price will cover expenses of food, wages of employees, replacement of and operation of equipment, and administrative expenses.
- C. Procedures will be outlined in the School Nutrition Procedure Manual and will be reviewed annually by all department staff.
