## Morrow County School District

JHCD/JHCDA-AR

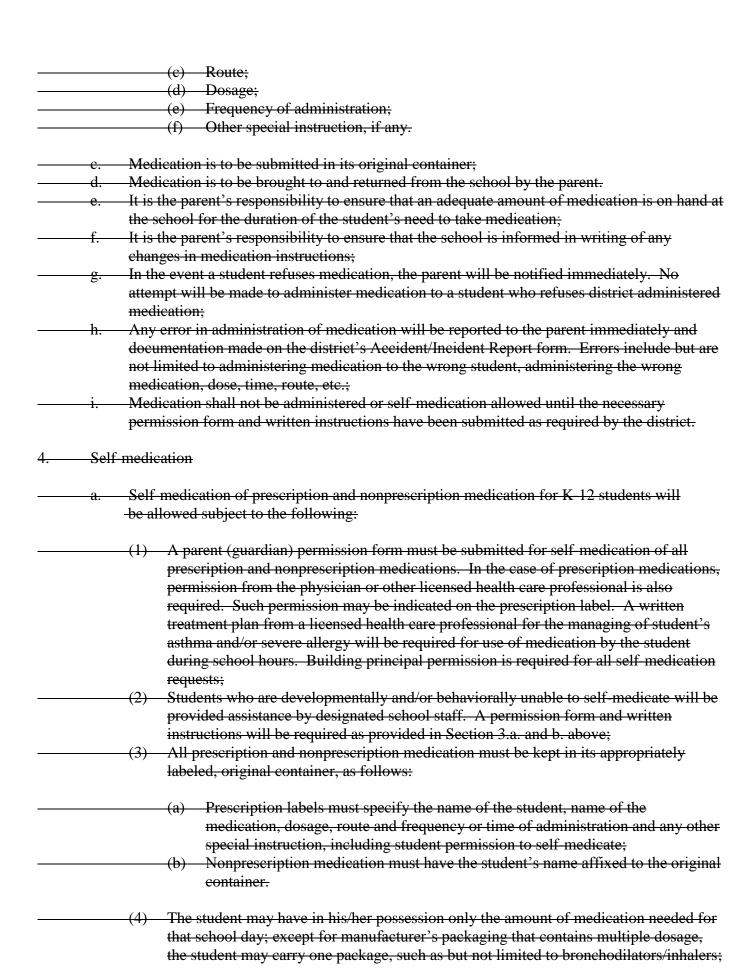

Revised 12-9-13 Rescind 12-8-14

## Administering Noninjectable/Injectable Medicines to Students

Students may, subject to the provisions of this regulation, have noninjectable/injectable prescription or nonprescription medication administered by designated, trained school staff. Self-medication by students will also be permitted in accordance with this regulation.

1.	— Definitions		
	<del>. a.</del>	"Prescription medication" means any noninjectable/injectable drug, chemical compound, suspension or preparation in suitable form for use as a curative or remedial substance taken either internally or externally by a student under the written direction of a physician. Prescription medication does not include dietary food supplements.	
	<u>b.</u>	"Nonprescription medication" means only commercially prepared, non-alcohol-based	
		medication to be taken at school that is necessary for the student to remain in school. This shall be limited to eyes, nose and cough drops, cough suppressants, analgesics, decongestants, antihistamines, topical antibiotics, anti-inflammatories and antacids that do not require written or oral instructions from a physician. Nonprescription medication does not include dietary food supplements.	
	с.	"Physician" means a doctor of medicine or osteopathy, a physician assistant licensed to practice by the Board of Medical Examiners for the state of Oregon, a nurse practitioner with prescriptive authority licensed by the Board of Nursing for the state of Oregon, a dentist licensed by the Board of Dentistry for the state of Oregon, an optometrist licensed by the Board of Optometry for the state of Oregon or a naturopathic physician licensed by the Board of Naturopathy for the state of Oregon. "Physician" also may include individuals	
	<del>d.</del> _	licensed in the categories set out above by comparable licensing agencies in adjoining states.  "Student self-medication" means a student must be able to administer medication to himself/herself without requiring a trained school staff member to assist in the administration of the medication.	
	е.	"Age appropriate guidelines" means the student must be able to demonstrate the ability, developmentally and behaviorally, to self-medicate with permission from parent (guardian), building administrator, and in the case of a prescription medication, a physician.	
	<del>f</del>	"Training" means the instruction to be provided to designated school staff on the administration of prescription and nonprescription medication, based on requirements set out in guidelines approved by the Oregon Department of Education, including discussion of applicable district policies, procedures and materials.	
2.	— Des	ignated School Staff/Training	
	<del>. a.</del>	The building principal will designate school staff authorized to administer medication to students within individual school buildings and while participating at school sponsored activities on or off district property. The building principal will ensure building and activity	

		practices and procedures are consistent with the requirements of law, rules and this				
	h	regulation.  The hailding maineined will encoure the training required by law and Oregon Administrative				
	<del>D.</del>	The building principal will ensure the training required by law and Oregon Administrative				
		Rules is provided. Training may be conducted by any physician licensed by the state of				
		Oregon, a nurse licensed by the Board of Nursing of the state of Oregon or by others as				
		deemed appropriate by the district in accordance with training program guidelines				
		recognized by the Oregon Department of Education.				
	с.	Training will provide an overview of applicable provisions of Oregon law, administrative				
		rules, district policy and administrative regulations and include, but not be limited to, the				
		following: safe storage, handling, monitoring medication supplies, disposing of				
		medications, record keeping and reporting of medication administration and errors in				
		administration, emergency medical response for life-threatening side effects and allergic				
		reactions and student confidentiality. Materials as recommended and/or approved by the				
		Oregon Department of Education will be used.				
	<del>d.</del>	Training will be provided upon initial assignment to designated school staff authorized to				
		administer medication to students.				
	<u>е.</u>	A copy of the district's policy and administrative regulation will be provided to all school				
		staff authorized to administer medication to students and others, as appropriate.				
3.	—— Adr	ministering Medications to Students				
		Requests for designated school staff to administer medication to students may be approved by the				
	dist	rict as follows:				
		A contract of the state of the district of the district of the state o				
	<del>a.</del>	A written request for the district to administer prescription medication must be submitted to				
		the school office to include:				
		(1) The written signed permission of the parent;				
		(2) The written instruction from the physician for the administration of the prescription				
		medication to the student including:				
		(a) Name of the students				
		(a) Name of the student;				
		(b) Name of the medication;				
		(c) Route;				
		(d) Dosage;				
		(e) Frequency of administration; and				
		(f) Other special instruction, if any.				
		The prescription label will be considered to meet this requirement if it contains the				
		information listed in (a)-(f) above.				
	— <u>b.</u>	A written request for the district to administer nonprescription medication must be submitted				
		to the school office to include:				
		(1) The written signed permission of the parent:				
		<ul> <li>(1) The written signed permission of the parent;</li> <li>(2) The written instruction from the parent for the administration of the nonprescription</li> </ul>				
		medication to the student including:				
		(a) Name of the student;				
		(b) Name of the medication;				

(continued)

		(5) Sharing and/or borrowing medication with another student is strictly prohibited.			
	<del>b.</del>	For students who have been prescribed bronchodilators or epinephrine, school staff will request from the parent or guardian, that the parent or guardian provide back up medication for emergency use by that student. Backup medication, if provided by the parent or guardian, will be kept at the student's school in a location to which the student has immediate access in the event the student has an asthma and/or severe allergy emergency.			
	e.	Upon written parent request and with a physician's written statement that the lack of immediate access to a backup autoinjectable epinephrine may be life threat3ening to a student and the location the school stores backup medication is not located in the student's classroom, a process shall be established to allow the backup autoinjectable epinephrine to be kept in a reasonably secure location in the student's classroom.			
	<del>d.</del>	Permission to self-medicate may be revoked if the student violates the Board's policy governing Administering Noninjectable Medicines to Students and/or these regulations. Additionally, students may be subject to discipline, up to and including expulsion, as appropriate.			
5	Handling, Storage, Monitoring Medication Supplies				
	<del>a.</del>	Medication administered by designated school staff and self-administered medication must be delivered by the parent to the school, in its original container, accompanied by the permission form and written instructions, as required above.			
	- b. с.	Medication in capsule or tablet form and categorized as a sedative, stimulant, anticonvulsant, narcotic analgesic or psychotropic medication will be counted by designated school staff in the presence of another school employee upon receipt, documented in the student's medication log and routinely monitored during storage and administration.  Discrepancies will be reported to the building principal immediately and documented in the student's medication log. For such medication not in capsule or tablet form, standard measuring and monitoring procedures will apply.  Designated school staff will follow the written instructions of the physician and parent and training guidelines as may be recommended by the Oregon Department of Education for administering all forms of noninjectable/injectable medications.			
	<del>d.</del>	Medication will be secured as follows:			
		<ul> <li>(1) Nonrefrigerated medications will be stored in a locked cabinet, drawer or box;</li> <li>(2) Medications requiring refrigeration will be stored in a refrigerator;</li> <li>(3) Access to medication storage keys will be limited to the building principal and designated school staff.</li> </ul>			
	е.	Designated school staff will be responsible for monitoring all medication supplies and for ensuring medication is secure at all times, not left unattended after administering and that the medication container is properly sealed and returned to storage.			
	<del>f.</del>	In the event medication is running low or an inadequate dosage is on hand to administer the			

medication, the designated school staff will notify the parent immediately.

6.	Emergency Response			
	. b !	Designated school staff will notify 911 or other appropriate emergency medical response systems and administer first aid as necessary in the event of life-threatening side effects that result from district-administered medication or from student self-medication. The parent and building principal will be notified immediately.  Minor adverse reactions that result from district-administered medication or from student self-medication will be reported to the parent immediately.		
7.	Disposal of Medications			
	ŧ	Medication not picked up by the parent at the end of the school year or within five days of the end of the medication period, whichever is earlier, will be disposed of by designated school staff in a nonrecoverable fashion as follows:		
		<ol> <li>Medication in capsule, tablet or liquid form will be removed from their original container (destroy any personal information). Crush solid medications, mix or dissolve in water (this applies to liquid as well) and mix with an undesirable substance such as coffee grounds, kitty litter, flour, etc. and place it in impermeable non descript containers such as empty cans or sealable bags, placing these containers in the trash. Flush prescriptions down the toilet only in the accompanying patient information specifically instructs it is safe to do so. (ONDCP Federal Guideliunes February 20, 2007).</li> <li>Other medication will be disposed of in accordance with established training procedures.</li> </ol>		
		All medication will be disposed of by designated school staff in the presence of another school employee, and documented as described in 8.a., below.		
8.	Documentation and Record Keeping			
		A medication log will be maintained for each student administered medication by the listrict. The medication log will include, but not be limited to:		
	(	<ol> <li>The medication administered, dose and route of medication, date, time of administration and name of the person administering the medication;</li> <li>Student refusals of medication;</li> <li>Errors in administration of medication<sup>1</sup>;</li> <li>Emergency and minor adverse reaction incidents<sup>1</sup>;</li> <li>Discrepancies in medication supply;</li> <li>Disposal of medication including date, quantity, manner in which the medication was destroyed and the signature of the school staff involved.</li> </ol>		
	i	All records relating to administration of medicines, including permission slips and written instructions, will be maintained in a separate, medical file apart from the student's education records file unless otherwise related to the student's educational placement and/or		

Designated school staff may note incident by symbol in medication log and attach detailed documentation, as necessary.

individualized education plan. Records will be retained in accordance with applicable provisions of OAR 166-414-0010 (22), (23) and (24).

Student medical files will be kept confidential. Access shall be limited to those designated school staff authorized to administer medication to students, the student and his/her parents. Information may be shared with school staff with a legitimate educational interest in the student or others as may be authorized by the parent in writing.

A school administrator, teacher or other school employee designated by the school administrator is not liable in a criminal action or for civil damages as a result of the administration of prescription and/or nonprescription medication as per ORS 339.870.

A school administrator, school nurse, teacher, or other district employee designated by the school administrator, the school district and members of the district board, are not liable in a criminal action or for civil damages as a result of a student's use of medication.
