

4-Day Instructional Week
THINK TANK
Date: 3/4/25
Building: Technology Department

Questions:

4x10s or 5x8s or just make 40hrs per week

Positives:

Health Care appointments can be made without taking leave.

Ten hour days are more productive and then we have time to recoup.

Allows for some time to work on the network when the staff is not in the building yet we do not need to come in on the weekend.

Negatives:

No child care on fridays.

I need more information about:

There are more holidays on mondays than fridays how would that be handled?

Would our contract of 260 days change to strict hours?

This department is for it.
