

Board of Education

ACTION

TITLE: Specialty Sports Support

DATE: July 21, 2025

RESPONSIBLE ADMINISTRATOR: Michael Beaumont
Director of Athletics and Activities

BACKGROUND/CONSIDERATIONS:

This proposal seeks to expand the district's support for non-core sports by providing specialized professional/certified coaching instruction and professional development for a range of athletic disciplines currently underserved. The intent is to elevate performance and enhance student-athlete development through a targeted investment in high-quality, certified professionals. This proposal is not intended to disrupt the existing coaching structure within the school district or the process of integrating AAA-approved volunteers.

RECOMMENDATION:

The Administration recommends that the board approves an allocation of \$3,000 for each of our specialty sports as presented in the proposal.

If the board agrees, the motion would read "Move to approve the Specialty Sports Support recommendation of \$3,000 per singleton sport as indicated in the proposal".
