State Testing

State testing was a challenge. The platform had several glitches in it that made it hard to give and monitor the assessments. We also had one class that didn't get part 1 of the 1st section. ACT we had a statewide system crash so we had about an hour delay getting started. Our students and staff at all levels were patient throughout this process, and handled the delays very well.

We will have the initial results in 3 weeks. We won't know if the students met, as cut scores haven't been established yet.

Literacy Plan

This past year the state developed a new Literacy Plan for the state. Each district was encouraged to create their own plan. We did receive a grant for this, and we will be doing some work on this plan this summer.
