

Sunray Elementary Board Report

Stacie Jones

2/9/14

On January 13th our PTO arranged for us to have a special performance called, "The Science of Juggling." Students enjoyed watching the talented performer, Jeffrey Daymont, while learning about the laws of motion and physics that make juggling possible. After his presentation, we handed out ABBIT Awards. Here are pictures of our 3rd and 4th grade ABBIT recipients:
